Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of James River Casualty Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for purposes of determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners ("NAIC") *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted practices by the state of Ohio.

The accompanying financial statements contain no differences as a result of practices prescribed or permitted by Ohio that differ from the NAIC's *Accounting Practices and Procedures Manual* as noted in the table below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related policies. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are determined on a daily pro rata basis. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method

Investment-grade non-loan-backed bonds are stated at amortized cost using the interest method. Non-investment-grade non-loan-backed bonds are stated at the lower of amortized cost or fair value. The Company does not have any investments in mandatory convertible securities or SVO-Identified investments.
- (3) Unaffiliated common stocks are stated at fair value.
- (4) Perpetual preferred stocks are stated at fair value not exceeding the current effective call price. Mandatory redeemable preferred stocks are stated at amortized cost, except non-investment grade redeemable preferred stocks, which are stated at the lower of cost or fair value.
- (5) The Company has no investments in mortgage loans.
- (6) Basis for Loan-Backed Securities and Adjustment Methodology

Loan-backed securities are stated at either amortized cost using the interest method, or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities except for interest-only securities or securities where the yield has become negative, which are valued using the prospective method.
- (7) The Company has no investments in any affiliated companies.
- (8) The Company has no investments in joint ventures, partnerships or limited liability companies.
- (9) The Company has no investments in derivatives.
- (10) The Company does not consider investment income as a factor in determining premium deficiency reserves.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past company and industry experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company does not write major medical insurance with prescription drug coverage.

(1) Description of Sources Used to Determine Prepayment Assumptions

For fixed rate agency mortgage-backed securities, prepayment speeds are calculated utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer consensus survey of long-term prepayment projections.

For other mortgage-backed, loan-backed and structured securities, prepayment assumptions are obtained from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. If Moody's projections are not available, data is obtained from Reuters, which utilizes the median prepayment speed from contributors' models. Prepayment assumptions for fixed rate agency mortgage-backed securities were generated using the prepayment speeds.

(2) Loan-backed and structured securities with a recognized other-than-temporary impairment (OTTI) - Not Applicable

(3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities - Not Applicable

2. 12 months or longer.....	6,013,351

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

The Company's management regularly reviews the value of investments. If the value of an investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination, the following are considered:

- (a) How long and by how much the fair value has been below its cost;
- (b) The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations;
- (c) Management's intent to hold the security long enough for it to recover its value;
- (d) Any downgrades of the security by a rating agency; and
- (e) Any nonpayment of scheduled interest payments.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, the impairment is recognized as a realized capital loss in the Statement of Income in the period the determination is made.

20. Fair Value Measurements

A. Fair Value Measurement

For statutory accounting, certain investments are carried at fair value, while others may periodically be carried at fair value based on certain factors such as the NAIC's lower of cost or market rule or an impairment. Assets recorded at fair value are categorized based on an evaluation of the various inputs used to measure fair value.

Three levels of inputs are used to measure fair value:

- Level 1: Quoted prices in active markets for identical assets,
- Level 2: Indirect observable inputs, including prices for similar assets and market corroborated inputs,
- Level 3: Unobservable inputs reflecting assumptions that market participants would use, including assumptions about risk.

Supporting documentation received from pricing vendors detailing the inputs, models and processes used in the vendor's evaluation process is used to determine the appropriate fair value hierarchy. Documentation from each pricing vendor is reviewed and monitored periodically to ensure they are consistent with pricing policy procedures. Market information obtained from brokers with respect to security valuations is also considered in the pricing hierarchy.

(2) Fair value measurements in Level 3 of the fair value hierarchy - Not Applicable

(3) Policies when Transfers Between Levels are Recognized

Transfers in and out of Level 3 are recognized based on the beginning of the reporting period.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

Fair value measurements for fixed income and equity securities are based on values published by independent pricing services such as Refinitiv and IHS Markit. These sources have been evaluated and approved by the investment manager's pricing policy committee. Under certain circumstances, if a vendor price is not available, a price may be obtained from a broker. Short-term securities are valued at amortized cost. Cash Equivalents, excluding money market mutual funds, are valued at amortized cost. Money market mutual funds are valued using a stable Net Asset Value (NAV) of one dollar per share.

Generally, independent pricing service vendors use a pricing methodology involving the market approach, including pricing models, which use prices and relevant market information regarding a particular security or securities with similar characteristics to establish a valuation.

Notes to the Financial Statements

20. Fair Value Measurements (Continued)

Investments for which external sources are not available or are determined by the investment manager not to be representative of fair value are recorded at fair value as determined by the investment manager. In determining the fair value of such investments, the investment manager considers one or more of the following factors: type of security held, convertibility or exchangeability of the security, redeemability of the security (including timing of such redemptions), application of industry accepted valuation models, recent trading activity, liquidity, estimates of liquidation value, purchase cost, and prices received for securities with similar terms of the same issuer or similar issuers. As of December 31, 2024, there were no investments for which external sources were unavailable to determine fair value.

F. Retroactive Reinsurance

- (1) Retroactive reinsurance agreements that transfer liabilities for losses that have already occurred and that will generate special surplus transactions

The Company has entered into three Loss Portfolio Transfer agreements ("LPTs") that are accounted for as retroactive reinsurance.

1) **LPT – Aleka:** On September 27, 2021, the Company and its parent James River Insurance Company, collectively "the Ceding Companies", entered into a loss portfolio transfer ("LPT") reinsurance transaction with Aleka Insurance, Inc. ("Aleka"), a wholly-owned captive insurer of Uber Technologies, Inc. ("Uber"), under which Aleka reinsures substantially all of the Company's legacy portfolio of commercial auto policies related to Uber's ridesharing business. Under the terms of the transaction, based on reserves in place as of July 1, 2021, the Company ceded to Aleka approximately \$2.9 million of commercial auto liabilities relating to business written for Uber's ridesharing business in the years 2013-2019. The coverage provided by Aleka is fully collateralized and not subject to an aggregate limit. The Company paid Aleka a reinsurance premium of \$2.9 million.

Aleka is obligated to post collateral as security for its obligations to the Ceding Companies, which will be maintained at 102% of the Ceding Companies' estimate of Aleka's obligations under the reinsurance agreement, in accordance with standard actuarial principles and based on reserves recorded in the Ceding Companies' statutory financial statements. This collateral is held in two trust accounts: the first, a trust account established by Aleka for the benefit of the Ceding Companies (the "LPT Trust"), and the second, a trust account established by the Ceding Companies for the benefit of the third-party claims administrator appointed by Aleka and the Ceding Companies (the "Loss Fund Trust"), which the Company funds using amounts withdrawn from the LPT Trust.

2) **LPT – ADC State National:** On July 2, 2024, the Ceding Companies entered into a Combined Loss Portfolio Transfer and Adverse Development Cover Reinsurance Contract (the "LPT-ADC Agreement") with State National Insurance Company, Inc. ("State National"). The transaction closed upon signing and is reflected in the results for the third quarter of 2024.

The LPT-ADC Agreement is effective January 1, 2024 (the "Effective Date") and applies to the Ceding Companies' Excess & Surplus Lines segment portfolio losses attaching to premium earned during 2010-2023 (both years inclusive), excluding, among others, losses related to property lines of business and commercial auto policies issued to a former large insured or its affiliates (the "Subject Business"). Pursuant to the LPT-ADC Agreement, (a) State National reinsured 85% of losses paid on and after the Effective Date in respect of the Subject Business in excess of \$716.6 million up to an aggregate limit of \$467.1 million (with State National's share of the aggregate limit being \$397.0 million) in exchange for consideration paid by the Ceding Companies equal to \$313.2 million, (b) the Ceding Companies will continue to manage claims and to manage and collect the benefit of other existing third-party reinsurance on the Subject Business, which third-party reinsurance shall inure to the benefit of the LPT-ADC Agreement, and (c) the Ceding Companies is entitled to a profit commission of 50% of any favorable development on the business ceded to State National below 104.5% of carried reserves, which profit commission shall not exceed \$87.0 million in total. The Company's portion of the consideration is \$0.80 million.

3) **LPT -ADC Cavello Bay:** On November 11, 2024, the Ceding Companies executed an Adverse Development Cover Reinsurance Contract with Enstar, through its subsidiary Cavello Bay Reinsurance Limited ("Cavello Bay"), effective January 1, 2024 and covers accident years 2010 through 2023 for the Company's E&S segment net reserves and is placed at 100%. This transaction provides an additional \$75 million in adverse development coverage on top of the existing LPT-ADC agreement with State National described above. It excludes exposure to property and the commercial auto segment already included in a previously executed loss portfolio transfer described above. The reserves as of December 31, 2024 did not reach the initial retention, and no reserves were ceded to Cavello Bay under the ADC as of December 31, 2024. The transaction received regulatory approval on December 19, 2024 and was settled on December 24, 2024. The cost of the ADC, paid entirely by James River Insurance Company, was \$52.8 million and resulted in an initial loss.

The LPTs are considered retroactive reinsurance contracts. The Loss and LAE reserves ceded under the LPTs are reflected as a contra-liability "Retroactive Reinsurance Reserve Ceded" within Aggregate Write-Ins for Liabilities. The initial loss on the ADC (if applicable) is reflected as an Aggregate Write-In on the Statement of Income. When the cumulative loss and LAE ceded under each of the LPTs exceed the consideration paid, the resulting gains are reflected as an Aggregate Write-In on the Statement of Income and as an Aggregate Write-in for Special Surplus Funds.

The Company is party to an intercompany pooling agreement ("the Pool") (see note 26 of Annual Statement). Development on the Ceding Companies' business subject to the LPTs is ceded to the Pool. Any gain or loss on the LPTs related to development is shared by the pooling participants at their respective pooling percentages. Each company's share of the gain or loss on LPTs is immediately settled through recoveries on paid losses.

Any balance in the Aggregate Write-In for Special Surplus Funds resulting from a gain on the LPTs is transferred to Unassigned Funds to the extent the retroactive reinsurance recovered exceeds the initial consideration paid under the contracts.

The Company participates in an intercompany pooling arrangement ("the Pool") as further described in Note 26 of the Annual Statement. The Company's participation is 7% of the entire pool. The development across the entire pool is described below.

Losses Incurred

During 2024, the companies participating in the Pool experienced \$127.5 million of adverse development on prior years.

The development was primarily related to James River Insurance Company and James River Casualty Company (collectively "James River"). James River experienced adverse development of \$123.0 million attributable to the other liability lines and product liability lines in accident years 2019-2022 which accounts for the majority of the development. As described in Note 23, James River purchased an ADC in 2024 that is accounted for as retroactive reinsurance. James River reported a net gain of \$48.7 million during 2024 reported as retroactive reinsurance benefit in Aggregate Write-ins for Miscellaneous income and pooled among the companies. The insurance entities within the James River Group are participants in an intercompany reinsurance pooling agreement which was effective January 1, 2013 and included business in-force and subsequent to that date. The Pool is net of all other reinsurance coverage carried by the participants. The Pool provides proportionate sharing of premiums earned, losses and loss adjustment expenses incurred and underwriting expenses incurred. Additionally, any gain related to pooled adverse development subject to a loss portfolio transfer agreement would be shared by the pooling participants at their respective pooling percentages.

On August 1, 2016 Falls Lake Fire and Casualty Company received approval from the California Department of Insurance to be a party to the pooling agreement, effective January 1, 2016 on an in-force, new and renewal basis.
