## SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q, or Quarterly Report, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements may be identified by the fact that they do not relate strictly to historical or current facts. You may identify forward-looking statements in this Quarterly Report by the use of words such as “anticipates,” “estimates,” “expects,” “intends,” “plans,” “seeks” and “believes,” and similar expressions or future or conditional verbs such as “will,” “should,” “would,” “may” and “could.” These forward-looking statements include, among others, statements relating to our future financial performance, our business prospects and strategy, anticipated financial position, liquidity and capital needs and other similar matters. These forward-looking statements are based on management’s current expectations and assumptions about future events, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict.

Our actual results may differ materially from those expressed in, or implied by, the forward-looking statements included in this Quarterly Report as a result of various factors, many of which are beyond our control, including, among others:

- the inherent uncertainty of estimating reserves and the possibility that incurred losses may be greater than our loss and loss adjustment expense reserves;
- inaccurate estimates and judgments in our risk management may expose us to greater risks than intended;
- the potential loss of key members of our management team or key employees and our ability to attract and retain personnel;
- adverse economic factors resulting in the sale of fewer policies than expected or an increase in the frequency or severity of claims, or both;
- a decline in our financial strength rating resulting in a reduction of new or renewal business;
- reliance on a select group of brokers and agents for a significant portion of our business and the impact of our potential failure to maintain such relationships;
- reliance on a select group of customers for a significant portion of our business and the impact of our potential failure to maintain such relationships;
- changes in laws or government regulation, including tax or insurance law and regulations;
- the recently enacted Public Law No. 115-97, informally titled the Tax Cuts and Jobs Act, may have a significant effect on us including, among other things, by potentially increasing our tax rate, as well as on our shareholders;
- in the event we do not qualify for the insurance company exception to the passive foreign investment company (“PFIC”) rules and are therefore considered a PFIC, there could be material adverse tax consequences to an investor that is subject to U.S. federal income taxation;
- the Company or any of its foreign subsidiaries becoming subject to U.S. federal income taxation;
- a failure of any of the loss limitations or exclusions we utilize to shield us from unanticipated financial losses or legal exposures, or other liabilities;
- losses from catastrophic events which substantially exceed our expectations and/or exceed the amount of reinsurance we have purchased to protect us from such events;
- potential effects on our business of emerging claim and coverage issues;
- exposure to credit risk, interest rate risk and other market risk in our investment portfolio;
- our ability to obtain reinsurance coverage at prices and on terms that allow us to transfer risk and adequately protect our company against financial loss;
- losses resulting from reinsurance counterparties failing to pay us on reinsurance claims or insurance companies with whom we have a fronting arrangement failing to pay us for claims;
- the potential impact of internal or external fraud, operational errors, systems malfunctions or cyber security incidents;
- our ability to manage our growth effectively;
- inadequacy of premiums we charge to compensate us for our losses incurred;

- failure to maintain effective internal controls in accordance with Sarbanes-Oxley Act of 2002, as amended (“Sarbanes-Oxley”); and
- changes in our financial condition, regulations or other factors that may restrict our subsidiaries’ ability to pay us dividends.

Additional information about these risks and uncertainties, as well as others that may cause actual results to differ materially from those in the forward-looking statements, is contained in our filings with the U.S. Securities and Exchange Commission (“SEC”), including our Annual Report on Form 10-K filed with the SEC on March 1, 2018.

Forward-looking statements speak only as of the date of this Quarterly Report. Except as expressly required under federal securities laws and the rules and regulations of the SEC, we do not have any obligation, and do not undertake, to update any forward-looking statements to reflect events or circumstances arising after the date of this Quarterly Report, whether as a result of new information or future events or otherwise. You should not place undue reliance on the forward-looking statements included in this Quarterly Report or that may be made elsewhere from time to time by us, or on our behalf. All forward-looking statements attributable to us are expressly qualified by these cautionary statements.

## **1. Accounting Policies**

### **Organization**

James River Group Holdings, Ltd. (referred to as “JRG Holdings” or, with its subsidiaries, the “Company”) is an exempted holding company registered in Bermuda, organized for the purpose of acquiring and managing insurance and reinsurance entities.

The Company owns six insurance companies based in the United States (“U.S.”) focused on specialty insurance niches and two Bermuda-based reinsurance companies as described below:

- James River Group Holdings UK Limited (“James River UK”) is an insurance holding company formed in 2015 in the United Kingdom (“U.K.”). JRG Holdings contributed James River Group, Inc. (“James River Group”), a U.S. insurance holding company, to James River UK in 2015.
- James River Group is a Delaware domiciled insurance holding company formed in 2002 which owns all of the Company’s U.S.-based subsidiaries, either directly or indirectly through one of its wholly-owned U.S. subsidiaries. James River Group oversees the Company’s U.S. insurance operations and maintains all of the outstanding debt in the U.S.
- James River Insurance Company is an Ohio domiciled excess and surplus lines insurance company that, with its wholly-owned insurance subsidiary, James River Casualty Company, is authorized to write business in every state and the District of Columbia.
- Falls Lake National Insurance Company (“Falls Lake National”) is an Ohio domiciled insurance company which wholly owns Stonewood Insurance Company (“Stonewood Insurance”), a North Carolina domiciled company, Falls Lake General Insurance Company, an Ohio domiciled company, and Falls Lake Fire and Casualty Company, a California domiciled company. Falls Lake National began writing specialty admitted fronting and program business in late 2013. Falls Lake Fire and Casualty began operations in 2016.
- JRG Reinsurance Company Ltd. (“JRG Re”) was formed in 2007 and commenced operations in 2008. JRG Re, a Bermuda domiciled reinsurer, primarily provides non-catastrophe casualty reinsurance to U.S. third parties.
- Carolina Re Ltd (“Carolina Re”) was formed in 2018 and provides reinsurance to the Company’s U.S.-based insurance subsidiaries. Carolina Re is a party to a stop loss reinsurance treaty with JRG Re.

### **Basis of Presentation**

The accompanying condensed consolidated financial statements and notes have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and do not contain all of the information and footnotes required by U.S. GAAP for complete financial statements. The condensed consolidated financial statements include the results of the Company and its subsidiaries from their respective dates of inception or acquisition, as applicable. Readers are urged to review the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 for a more complete description of the Company’s business and accounting policies. In the opinion of management, all adjustments necessary for a fair presentation of the condensed consolidated financial statements have been included. Such adjustments consist only of normal recurring items. Interim results are not necessarily indicative of results of operations for the full year. The consolidated balance sheet as of December 31, 2017 was derived from the Company’s audited annual consolidated financial statements.

Intercompany transactions and balances have been eliminated.

### **Estimates and Assumptions**

Preparation of the condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying disclosures. Those estimates are inherently subject to change, and actual results may ultimately differ from those estimates.

### **Variable Interest Entities**

Entities that do not have sufficient equity at risk to allow the entity to finance its activities without additional financial support or in which the equity investors, as a group, do not have the characteristic of a controlling financial interest are referred to as variable interest entities (“VIE”). A VIE is consolidated by the variable interest holder that is determined to have the controlling financial interest (primary beneficiary) as a result of having both the power to direct the activities of a VIE that most significantly impact the VIE’s economic performance and the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE. The Company determines whether it is the primary beneficiary of an entity subject to consolidation based on a qualitative assessment of the VIE’s capital structure, contractual terms, nature of the VIE’s operations

**JAMES RIVER GROUP HOLDING, LTD. AND SUBSIDIARIES**  
**Notes to Condensed Consolidated Financial Statements (continued)**

and purpose, and the Company's relative exposure to the related risks of the VIE on the date it becomes initially involved in the VIE. The Company reassesses its VIE determination with respect to an entity on an ongoing basis.

The Company holds interests in VIEs through certain equity method investments included in "other invested assets" in the accompanying condensed consolidated balance sheets. The Company has determined that it should not consolidate any of the VIEs as it is not the primary beneficiary in any of the relationships. Although the investments resulted in the Company holding variable interests in the entities, they did not empower the Company to direct the activities that most significantly impact the economic performance of the entities. The Company's investments related to these VIEs totaled \$31.9 million and \$32.1 million as of September 30, 2018 and December 31, 2017, respectively, representing the Company's maximum exposure to loss.

### **Income Tax Expense**

Our effective tax rate fluctuates from period to period based on the relative mix of income reported by country and the respective tax rates imposed by each tax jurisdiction. For the three months ended September 30, 2018 and 2017, our U.S. federal income tax expense was 11.5% and 23.8% of income before taxes, respectively (9.6% and 11.8% for the nine months ended September 30, 2018 and 2017, respectively). For U.S.-sourced income, the Company's U.S. federal income tax expense differs from the amounts computed by applying the federal statutory income tax rate (21% in 2018 and 35% in 2017) to income before taxes due primarily to interest income on tax-advantaged state and municipal securities (state and municipal securities represent 11.8% and 12.2% of our available-for-sale securities at September 30, 2018 and 2017, respectively), dividends received income, and excess tax benefits on share based compensation.

Financial results reflect provisional amounts related to the December 2017 enactment of the Tax Cuts and Jobs Act of 2017 (the "Tax Act"). These provisional estimates are based on the Company's initial analysis and current interpretation of the legislation. Given the complexity of the legislation, anticipated guidance from the U.S. Treasury, and the potential for additional guidance from the SEC or the Financial Accounting Standards Board ("FASB"), these estimates may be adjusted during 2018.

### **Adopted Accounting Standards**

Effective January 1, 2018, the Company adopted Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers (Topic 606)*. The guidance applies to all companies that either enter into contracts with customers to transfer goods or services or enter into contracts for the transfer of nonfinancial assets, unless those contracts are within the scope of other standards, such as insurance contracts. Under this guidance, a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. Judgments required in adopting this update may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The adoption of ASU 2014-09 had no impact on reported fee income and there was no cumulative effect of initially applying the update.

Effective January 1, 2018, the Company adopted ASU 2016-01, *Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. Among other things, this ASU requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. Upon adoption on January 1, 2018, the Company made a \$4.7 million cumulative-effect adjustment to increase retained earnings and reduce accumulated other comprehensive income. The adoption of ASU 2016-01 did not materially impact the Company's financial position, cash flows, or total comprehensive income. The Company's results of operations were impacted as changes in fair value of equity instruments are now presented in net income rather than other comprehensive (loss) income. For the three and nine months ended September 30, 2018, the respective impact on net income was an increase of \$420,000 (\$0.01 increase in basic and diluted earnings per share) and a reduction of \$502,000 (\$0.02 reduction in basic and diluted earnings per share).

Effective January 1, 2018, the Company adopted ASU 2018-02, *Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*. This update was issued as a result of the enactment of the Tax Act on December 22, 2017. The ASU allows for the option to reclassify the stranded tax effects resulting from the implementation of the Tax Act out of accumulated other comprehensive income and into retained earnings. As the adoption of ASU 2016-01 in 2018 resulted in the reclassification of the entire unrealized balance on equity securities from accumulated other comprehensive income into retained earnings, only the stranded tax effects on the unrealized balances of fixed income securities were impacted by the adoption of ASU 2018-02. The reclassification resulted in a \$711,000 decrease to the Company's retained earnings with a corresponding increase to accumulated other comprehensive income in the first quarter of 2018.

**Prospective Accounting Standards**

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. Under current guidance for lessees, leases are only included on the balance sheet if they are designated as capital leases. This update will require the recognition of a right-of-use asset and a corresponding lease liability, discounted to the present value, for all leases that extend beyond 12 months. This ASU is effective for annual and interim reporting periods beginning after December 15, 2018. In the third quarter of 2018, the FASB issued ASU 2018-10 to clarify certain aspects of the guidance and ASU 2018-11, which provides an optional alternative transition method to initially apply the new leases standard at the adoption date (collectively, with ASU 2016-02, Topic 842). Topic 842 now allows for the use of either the modified retrospective adoption method or the alternative transition method. The Company plans to elect the alternative transition method, which does not require the restatement of prior years. Adoption of this standard will impact the Company's consolidated balance sheets but is not expected to have a material impact on the Company's results of operations or cash flows. The Company will finalize its evaluation of the new standard in the fourth quarter of 2018.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. Current GAAP delays the recognition of credit losses until it is probable a loss has been incurred. The update will require financial assets measured at amortized cost, such as bank loan participations held for investment, to be presented at the net amount expected to be collected by means of an allowance for credit losses that runs through net income. Credit losses relating to available-for-sale debt securities will also be recorded through an allowance for credit losses, with the amount of the allowance limited to the amount by which fair value is below amortized cost. This ASU is effective for annual and interim reporting periods beginning after December 15, 2019. Upon adoption, this ASU will be applied using the modified-retrospective approach, by which a cumulative-effect adjustment will be made to retained earnings as of the beginning of the first reporting period presented. The Company has not yet completed the analysis of how adopting this ASU will affect the Company's financial statements.

The Company held securities of 248 issuers that were in an unrealized loss position at September 30, 2018 with a total fair value of \$967.4 million and gross unrealized losses of \$27.7 million. The unrealized loss position is generally due to a rise in interest rates. None of the fixed maturity securities with unrealized losses has ever missed, or been delinquent on, a scheduled principal or interest payment.

At September 30, 2018, 99.7% of the Company's fixed maturity security portfolio was rated "BBB-" or better ("investment grade") by Standard & Poor's or received an equivalent rating from another nationally recognized rating agency.

Management concluded that none of the fixed maturity securities with an unrealized loss at September 30, 2018 or December 31, 2017 experienced an other-than-temporary impairment. Management does not intend to sell available-for-sale securities in an unrealized loss position, and it is not "more likely than not" that the Company will be required to sell these securities before a recovery in their value to their amortized cost basis occurs.

At December 31, 2017, management concluded that one equity security, based on the severity and duration of the impairment, had experienced an other-than-temporary impairment. Accordingly, the Company recorded an impairment loss of \$1.5 million in 2017. Management concluded that none of the other equity securities with an unrealized loss at December 31, 2017 experienced an other-than-temporary impairment.

At December 31, 2017, the Company held a participation in a loan with unpaid principal of \$807,000 issued by a company that produces and supplies power to Puerto Rico through a power purchase agreement with Puerto Rico Electric Power Authority ("PREPA"), a public corporation and governmental agency of the Commonwealth of Puerto Rico. Management concluded that an allowance for credit losses should be established on the loan at December 31, 2017 to reduce its carrying value to \$0. In the

**JAMES RIVER GROUP HOLDING, LTD. AND SUBSIDIARIES**  
**Notes to Condensed Consolidated Financial Statements (continued)**

first quarter of 2018, the full outstanding principal on the loan was repaid and the Company recognized a realized gain of \$807,000 on the repayment.

Management concluded that none of the loans in the Company's bank loan portfolio were impaired as of September 30, 2018. At December 31, 2017, the aggregate allowance for credit losses was \$3.2 million on impaired loans from five issuers with a total carrying value of \$5.1 million and unpaid principal of \$8.4 million. The aggregate allowance for credit losses on impaired loans was \$1.5 million at September 30, 2017 and \$943,000 at December 31, 2016.

Bank loan participations generally have a credit rating that is below investment grade (i.e. below "BBB-" for Standard & Poor's) at the date of purchase. These bank loans are primarily senior, secured floating-rate debt rated "BB", "B", or "CCC" by Standard & Poor's or an equivalent rating from another nationally recognized rating agency. These bank loans include assignments of, and participations in, performing and non-performing senior corporate debt generally acquired through primary bank syndications and in secondary markets. Bank loans consist of, but are not limited to, term loans, the funded and unfunded portions of revolving credit loans, and other similar loans and investments. Management believed that it was probable at the time that these loans were acquired that the Company would be able to collect all contractually required payments receivable.

Generally, the accrual of interest on a bank loan participation is discontinued when the contractual payment of principal or interest has become 90 days past due or management has serious doubts about further collectability of principal or interest. A bank loan participation may remain on accrual status if it is in the process of collection and is either guaranteed or well secured. Generally, bank loan participations are restored to accrual status when the obligation is brought current, has performed in accordance with the contractual terms for a reasonable period of time, and the ultimate collectability of the total contractual principal and interest is no longer in doubt. Interest received on nonaccrual loans generally is reported as investment income. There were no bank loans on nonaccrual status at September 30, 2018 or December 31, 2017.

The allowance for credit losses is maintained at a level believed adequate by management to absorb estimated probable credit losses. Management's periodic evaluation of the adequacy of the allowance is based on consultations and advice of the Company's independent investment manager, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, current economic conditions, and other relevant factors. The Company generally records an allowance equal to the difference between the fair value and the amortized cost of bank loans that it has determined to be impaired as a practical expedient for an estimate of probable future cash flows to be collected on those bank loans. Bank loans are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

The average recorded investment in impaired bank loans was \$2.6 million and \$4.5 million during the nine months ended September 30, 2018 and 2017, respectively. Investment income of \$125,000 and \$231,000, respectively, was recognized during the time within those periods that the loans were impaired. The Company recorded net realized investment gains of \$42,000 and net realized investment losses of \$851,000 in the three and nine months ended September 30, 2018, respectively, for changes in the fair value of impaired bank loans (\$729,000 and \$594,000 of net realized investment losses in the three and nine months ended September 30, 2017, respectively).

Changes in unrealized gains or losses on securities held for trading are recorded as trading gains or losses within net investment income. Net investment income for the nine months ended September 30, 2018 includes \$4,000 of net trading losses, all relating to securities sold during the nine months ended September 30, 2018.

(a)The Company's Corporate and Other segment owns equity interests ranging from 2.6% to 32.8% in various LLCs whose principal objective is capital appreciation and income generation from owning and operating renewable energy production facilities (wind and solar). The LLCs are managed by an entity for which two of our directors are officers, and the Company's Non-Executive Chairman has invested in certain of these LLCs. The equity method is used to account for the Company's LLC investments. Income for the LLCs primarily reflects adjustments to the carrying values of investments in renewable energy projects to their determined fair values. The fair value adjustments are included in revenues for the LLCs. Expenses for the LLCs are not significant and are comprised of administrative and interest expenses. The Company received cash distributions from these investments totaling \$2.8 million and \$4.4 million in the nine months ended September 30, 2018 and 2017, respectively.

(b)The Company has invested in notes receivable for renewable energy projects. At September 30, 2018, the Company holds an \$8.8 million note issued by an entity for which two of our directors are officers. Interest on the note, which matures in 2021, is

**JAMES RIVER GROUP HOLDING, LTD. AND SUBSIDIARIES**  
**Notes to Condensed Consolidated Financial Statements (continued)**

fixed at 15.0%. Interest income on the note was \$328,000 and \$954,000 for the three and nine months ended September 30, 2018, respectively (\$238,000 and \$287,000 for the three and nine months ended September 30, 2017, respectively).

(c)The Company owns investments in limited partnerships that invest in concentrated portfolios including publicly-traded small cap equities, loans of middle market private equity sponsored companies, equity tranches of collateralized loan obligations (“CLOs”), and tranches of distressed home loans. Income from the partnerships is recognized under the equity method of accounting. The Company’s Corporate and Other segment held an investment in a limited partnership with a carrying value of \$3.5 million at September 30, 2018. The Company recognized investment income of \$266,000 and \$474,000 on the investment for the three and nine months ended September 30, 2018, respectively (\$26,000 and \$246,000 for the three and nine months ended September 30, 2017, respectively). The Company’s Excess and Surplus Lines segment holds investments in limited partnerships of \$28.4 million at September 30, 2018. Investment income of \$723,000 and \$1.8 million was recognized on the investments for the three and nine months ended September 30, 2018, respectively (\$450,000 and \$1.3 million for the three and nine months ended September 30, 2017, respectively). At September 30, 2018, the Company’s Excess and Surplus Lines segment has outstanding commitments to invest another \$625,000 in these limited partnerships.

(d)The Company holds \$4.5 million of subordinated notes issued by a bank holding company. Interest on the notes, which mature on August 12, 2023, is fixed at 7.6% per annum. Interest income on the notes was \$85,000 and \$257,000, respectively, in both the three and nine months ended September 30, 2018 and 2017. The Company’s Non-Executive Chairman was previously the Lead Independent Director of the bank holding company and an investor in the bank holding company. Additionally, one of the Company’s directors was an investor in the bank holding company and is currently a lender to the bank holding company.

At September 30, 2018, the Company held an investment in a CLO where one of the underlying loans was issued by the bank holding company. The investment, with a carrying value of \$4.4 million at September 30, 2018, is classified as an available-for-sale fixed maturity.

The Company previously held common shares issued by the bank holding company. Realized investments gains of \$409,000 were recognized in the nine months ended September 30, 2017 related to the sale of common shares of the bank holding company.

The Company holds a \$1.0 million certificate of deposit issued by the bank holding company. The certificate of deposit, which matures on December 19, 2018, is carried as a short-term investment. Interest income of \$4,000 and \$2,000 was recognized on this investment for the nine months ended September 30, 2018 and 2017, respectively.

### 3. Goodwill and Intangible Assets

On December 11, 2007, the Company completed an acquisition of James River Group by acquiring 100% of the outstanding shares of James River Group common stock, referred to herein as the “Merger”. The transaction was accounted for under the purchase method of accounting, and goodwill and intangible assets were recognized by the Company as a result of the transaction. Goodwill resulting from the Merger was \$181.8 million at September 30, 2018 and December 31, 2017.

The gross carrying amounts and accumulated amortization for each major specifically identifiable intangible asset class were as follows:

The Company experienced \$12.2 million of adverse reserve development in the three months ended September 30, 2018 on the reserve for losses and loss adjustment expenses held at December 31, 2017. This reserve development included \$10.4 million of adverse development in the Excess and Surplus Lines segment, primarily from adverse development in commercial auto business which was partially offset by \$3.0 million of favorable development on the property catastrophe losses from the September 2017 storms. The Specialty Admitted Insurance segment experienced \$833,000 of favorable development, primarily due to favorable development in the workers' compensation business for prior accident years. The Company also experienced \$2.7 million of adverse development in the Casualty Reinsurance segment primarily related to losses from risk profiles and treaty structures that the Company no longer writes.

The Company experienced \$7.6 million of favorable reserve development in the three months ended September 30, 2017 on the reserve for losses and loss adjustment expenses held at December 31, 2016. This reserve development included \$5.1 million of favorable development in the core excess and surplus lines. The Specialty Admitted Insurance segment experienced \$3.0 million of favorable development, primarily due to favorable development in the workers' compensation business for prior accident years. The Company also experienced \$581,000 of adverse development for the Casualty Reinsurance segment. The development was mostly related to the 2011 and 2013 contracts with one reinsured.

The Company experienced \$11.8 million of adverse reserve development in the nine months ended September 30, 2018 on the reserve for losses and loss adjustment expenses held at December 31, 2017. This reserve development included \$9.2 million of adverse development in the Excess and Surplus Lines segment, primarily from adverse development in commercial auto business which was partially offset by favorable development in other core Excess and Surplus Lines including \$4.9 million of favorable development on the property catastrophe losses from the September 2017 storms. The Specialty Admitted Insurance segment experienced \$2.3 million of favorable development, primarily due to favorable development in the workers' compensation business for prior accident years, partially offset by adverse development on certain terminated program business. The Company also experienced \$4.9 million of adverse development in the Casualty Reinsurance segment primarily related to losses from risk profiles and treaty structures that the Company no longer writes.

## 7. Contingent Liabilities

The Company is a party to various lawsuits arising in the ordinary course of its operations. The Company believes that the ultimate resolution of these matters will not materially impact its financial position, cash flows, or results of operations.

The Company's reinsurance subsidiary, JRG Re, has entered into three letter of credit facilities with banks as security to third-party reinsureds on reinsurance assumed by JRG Re. JRG Re has established custodial accounts to secure these letters of credit. Under a \$100.0 million facility, \$45.3 million of letters of credit were issued through September 30, 2018 which were secured by deposits of \$54.1 million. Under a \$102.5 million facility, \$100.8 million of letters of credit were issued through September 30, 2018 which were secured by deposits of \$126.4 million. Under a \$100.0 million facility, \$6.9 million of letters of credit were issued through September 30, 2018 which were secured by deposits of \$10.1 million. JRG Re has also established trust accounts to secure its obligations to selected reinsureds. The total amount deposited in the trust accounts for the benefit of third-party reinsureds was \$272.9 million at September 30, 2018.

The Company is also exposed to credit risk relating to a set of insurance contracts with an insured group of companies under which the Company pays losses and loss adjustment expenses on the contract. The Company has indemnity agreements with this group of insured parties (non-insurance entities) and is contractually entitled to receive reimbursement for a significant portion of the losses and loss adjustment expenses paid on behalf of the insured parties and other expenses incurred by the Company. The insured parties are required to collateralize all amounts currently due to the Company and to provide additional collateral sufficient to cover the amounts that may be recoverable under the indemnity agreement, including among other things case loss and loss adjustment expense reserves, IBNR loss and loss adjustment expense reserves, extra contractual obligations and excess of policy limits liabilities. This collateral is currently provided through a collateral trust arrangement established in favor of the Company by a captive insurance company affiliate of the insured group. At September 30, 2018, the cash equivalent collateral held in the collateral trust arrangement was approximately \$1,014.7 million, which exceeds the amount of claims receivable and unpaid reported losses and loss adjustment expenses outstanding. The Company has ongoing exposure to estimated losses and expenses on these contracts growing at a faster pace than growth in our collateral balances. In addition, we have credit exposure if our estimates of future losses and loss adjustment expenses and other amounts recoverable, which are the basis for establishing collateral balances, are lower than actual amounts paid or payable. The amount of our credit exposure in any of these instances could be material. To mitigate these risks, we closely and frequently monitor our exposure compared to our collateral held, and we request additional collateral when our analysis indicates that we have uncollateralized exposure.

## 8. Segment Information

The Company has four reportable segments: the Excess and Surplus Lines segment, the Specialty Admitted Insurance segment, the Casualty Reinsurance segment, and the Corporate and Other segment. Segment profit (loss) is measured by underwriting profit (loss), which is generally defined as net earned premiums less loss and loss adjustment expenses and other operating expenses of the operating segments. Gross fee income of the Excess and Surplus Lines segment is included in that segment's underwriting profit. Gross fee income of \$3.0 million and \$3.9 million was included in underwriting profit for the three months ended September 30, 2018 and 2017, respectively. For the nine months ended September 30, 2018 and 2017, gross fee income of \$11.5 million and \$12.0 million, respectively, was included in underwriting profit. Segment results are reported prior to the effects of intercompany reinsurance agreements among the Company's insurance subsidiaries.

The following table summarizes the Company's segment results:

Underwriting profit (loss) for the three and nine months ended September 30, 2017 reflects \$10.0 million of catastrophe losses from Hurricanes Harvey, Irma, and Maria. The Excess and Surplus Lines segment includes \$7.3 million of such losses primarily related to property losses in Florida. The Casualty Reinsurance segment includes \$2.7 million of losses primarily related to nonstandard auto losses in Texas. Underwriting profit (loss) for the three and nine months ended September 30, 2018 includes favorable development on the reserves for the 2017 storms of \$3.0 million and \$4.9 million, respectively, in the Excess and Surplus Lines segment.

The correction of a contingent commission accrual and related commission expense increased underwriting expenses of the Casualty Reinsurance segment by \$0 and \$2.0 million in the three and nine months ended September 30, 2017, respectively. In addition, the correction of an expense reimbursement accrual for the Excess and Surplus Lines segment reduced underwriting expenses by \$1.3 million and \$0 for the three and nine months ended September 30, 2017, respectively. There was also a third quarter adjustment to increase the investment income of the Casualty Reinsurance segment by \$480,000 for the three months ended September 30, 2017. Investment income for the Casualty Reinsurance segment had been understated for the three months ended June 30, 2017.

## 9. Other Operating Expenses and Other Expenses

Other operating expenses consist of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
	<i>(in thousands)</i>			
Amortization of policy acquisition costs	\$ 27,511	\$ 35,311	\$ 86,381	\$ 94,563

## 10. Fair Value Measurements

Three levels of inputs are used to measure fair value of financial instruments: (1) Level 1: quoted price (unadjusted) in active markets for identical assets, (2) Level 2: inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument, and (3) Level 3: inputs to the valuation methodology are unobservable for the asset or liability.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

To measure fair value, the Company obtains quoted market prices for its investment securities from its outside investment managers. If a quoted market price is not available, the Company uses prices of similar securities. Values for U.S. Treasury and publicly-traded equity securities are generally based on Level 1 inputs which use the market approach valuation technique. The values for all other fixed maturity securities (including state and municipal securities and obligations of U.S. government corporations and agencies) generally incorporate significant Level 2 inputs, and in some cases, Level 3 inputs, using the market approach and income approach valuation techniques. There have been no changes in the Company's use of valuation techniques since December 31, 2016.

The Company reviews fair value prices provided by its outside investment managers for reasonableness by comparing the fair values provided by the managers to those provided by its investment custodian. The Company also reviews and monitors changes in unrealized gains and losses. The Company has not historically adjusted security prices. The Company obtains an understanding of the methods, models and inputs used by the investment managers and independent pricing services, and controls are in place to validate that prices provided represent fair values. The Company's control process includes, but is not limited to, initial and ongoing evaluation of the methodologies used, a review of specific securities and an assessment for proper classification within the fair value hierarchy, and obtaining and reviewing internal control reports for our investment manager that obtains fair values from independent pricing services.

Assets measured at fair value on a recurring basis as of September 30, 2018 are summarized below:

The beginning and ending balances of assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) consist of one available-for-sale fixed maturity security with a fair value of \$4.4 million, and there were no purchases, sales, or transfers involving Level 3 securities for the nine months ended September 30, 2018 and 2017. A principal payment of \$316,000 was received on the Company's one Level 3 security in the three months ended September 30, 2018. A market approach using prices in trades of comparable securities was utilized to determine the fair value for this security at September 30, 2018 and December 31, 2017.

Transfers out of Level 3 occur when the Company is able to obtain reliable prices from pricing vendors for securities for which the Company was previously unable to obtain reliable prices. Transfers in to Level 3 occur when the Company is unable to obtain reliable prices for securities from pricing vendors and instead must use broker price quotes to value the securities.

There were no transfers between Level 1 and Level 2 during the nine months ended September 30, 2018 or 2017. The Company recognizes transfers between levels at the beginning of the reporting period.

There were no realized gains or losses included in earnings for the nine months ended September 30, 2018 attributable to the change in unrealized gains or losses relating to Level 3 assets valued at fair value on a recurring basis that are still held at September 30, 2018.

The Company measures certain bank loan participations at fair value on a non-recurring basis during the year as part of the Company's impairment evaluation when loans are determined by management to be impaired.

**JAMES RIVER GROUP HOLDING, LTD. AND SUBSIDIARIES**  
**Notes to Condensed Consolidated Financial Statements (continued)**

Assets measured at fair value on a nonrecurring basis are summarized below:

	Fair Value Measurements Using			Total

<i>(in thousands)</i>				
<b>September 30, 2018</b>

<b>December 31, 2017</b>				
Bank loan participations held-for-investment	\$ —	\$ —	\$ 5,111	\$ 5,111

Management concluded that none of the bank loan participations held-for-investment were impaired as of September 30, 2018. At December 31, 2017, bank loan participations held-for-investment that were determined to be impaired were written down to their fair value of \$5.1 million.

In the determination of the fair value for bank loan participations and certain high yield bonds, the Company's investment manager endeavors to obtain data from multiple external pricing sources. External pricing sources may include brokers, dealers and price data vendors that provide a composite price based on prices from multiple dealers. Such external pricing sources typically provide valuations for normal institutional size trading units of such securities using methods based on market transactions for comparable securities, and various relationships between securities, as generally recognized by institutional dealers. For investments in which the investment manager determines that only one external pricing source is appropriate or if only one external price is available, the relevant investment is generally recorded at fair value based on such price.

Investments for which external sources are not available or are determined by the investment manager not to be representative of fair value are recorded at fair value as determined by the Company, with input from its investment managers and valuation specialists as considered necessary. In determining the fair value of such investments, the Company considers one or more of the following factors: type of security held, convertibility or exchangeability of the security, redeemability of the security (including the timing of redemptions), application of industry accepted valuation models, recent trading activity, liquidity, estimates of liquidation value, purchase cost, and prices received for securities with similar terms of the same issuer or similar issuers. At September 30, 2018, there were no investments for which external sources were unavailable to determine fair value. At December 31, 2017, there was one bank loan participation with an unpaid principal balance of \$807,000 and a carrying value of zero for which external sources were unavailable to determine fair value.

The carrying values and fair values of financial instruments are summarized below:

Junior subordinated debt	104,055	115,490	104,055	116,569

The fair values of fixed maturity securities and equity securities have been determined using quoted market prices for securities traded in the public market or prices using bid or closing prices for securities not traded in the public marketplace. The fair values of cash and cash equivalents and short-term investments approximate their carrying values due to their short-term maturity.

**JAMES RIVER GROUP HOLDING, LTD. AND SUBSIDIARIES**  
**Notes to Condensed Consolidated Financial Statements (continued)**

The fair values of other invested assets-notes receivable, senior debt, and junior subordinated debt at September 30, 2018 and December 31, 2017 were determined by calculating the present value of expected future cash flows under the terms of the note agreements or debt agreements, as applicable, discounted at an estimated market rate of interest at September 30, 2018 and December 31, 2017, respectively.

The fair values of bank loan participations held-for-investment, senior debt, and junior subordinated debt at September 30, 2018 and December 31, 2017 were determined using inputs to the valuation methodology that are unobservable (Level 3).

### 11. Capital Stock and Equity Awards

The Company issued 253,438 common shares in the nine months ended September 30, 2018 with 210,134 new shares related to stock option exercises and 43,304 new shares related to vesting of RSUs. The total common shares outstanding increased from 29,696,682 at December 31, 2017 to 29,950,120 at September 30, 2018.

The Company declared the following dividends during the first nine months of 2018 and 2017:

Date of Declaration	Dividend per Common Share	Payable to Shareholders of Record on	Payment Date	Total Amount
<b>2018</b>				
February 22, 2018	\$ 0.30	March 12, 2018	March 30, 2018	\$ 9.0 million
May 1, 2018	\$ 0.30	June 11, 2018	June 29, 2018	\$ 9.1 million
August 1, 2018	\$ 0.30	September 10, 2018	September 28, 2018	\$ 9.1 million
	\$ 0.90			\$ 27.2 million
<b>2017</b>				
February 14, 2017	\$ 0.30	March 13, 2017	March 31, 2017	\$ 8.9 million
May 2, 2017	\$ 0.30	June 12, 2017	June 30, 2017	\$ 8.9 million
August 1, 2017	\$ 0.30	September 11, 2017	September 29, 2017	\$ 8.9 million
	\$ 0.90			\$ 26.7 million

Included in the total dividends for the nine months ended September 30, 2018 and 2017 are \$297,000 and \$232,000 of dividend equivalents on RSUs, respectively. The balance of dividends payable was \$599,000 at September 30, 2018 and \$434,000 at December 31, 2017.

### Equity Incentive Plans

The Company's shareholders have approved various equity incentive plans, including the Amended and Restated 2009 Equity Incentive Plan (the "Legacy Plan"), the 2014 Long Term Incentive Plan ("2014 LTIP"), and the 2014 Non-Employee Director Incentive Plan ("2014 Director Plan") (collectively, the "Plans"). All awards issued under the Plans are issued at the discretion of the Board of Directors. Under the Legacy Plan, employees received non-qualified stock options. Options are outstanding under the Legacy Plan; however, no additional awards may be granted.

Employees are eligible to receive non-qualified stock options, incentive stock options, share appreciation rights, performance shares, restricted shares, RSUs, and other awards under the 2014 LTIP. The maximum number of shares available for issuance under the 2014 LTIP is 4,171,150, and at September 30, 2018, 1,703,251 shares are available for grant.

Non-employee directors of the Company are eligible to receive non-qualified stock options, share appreciation rights, performance shares, restricted shares, RSUs, and other awards under the 2014 Director Plan. The maximum number of shares available for issuance under the 2014 Director Plan is 50,000, and at September 30, 2018, 21,663 shares are available for grant.

Generally, awards issued under the 2014 LTIP and 2014 Director Plan vest immediately in the event that an award recipient is terminated without Cause (as defined in the applicable plans), and in the case of the 2014 LTIP for Good Reason (as defined in the applicable plans), at any time following a Change in Control (as defined in the applicable plans).

**Options**

The following table summarizes the option activity:

	Nine Months Ended September 30,			
	2018		2017	
	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price
<b>Outstanding:</b>				
Beginning of period	1,479,236	\$ 27.81	2,234,699	\$ 22.84
Granted	—	\$ —	205,244	\$ 42.24
Exercised	(280,683)	\$ 21.03	(735,587)	\$ 18.00
Forfeited	(42,215)	\$ 36.86	(62,489)	\$ 30.80
End of period	1,156,338	\$ 29.13	1,641,867	\$ 27.13
Exercisable, end of period	841,763	\$ 26.64	699,922	\$ 22.63

All of the outstanding options vest over two to four years and have a contractual life of seven years from the original date of grant. All of the outstanding options have an exercise price greater than the fair value of the underlying shares at the date of grant. The weighted-average remaining contractual life of the options outstanding and options exercisable was 3.9 years and 3.6 years, respectively.

**RSUs**

The following table summarizes the RSU activity:

	Nine Months Ended September 30,			
	2018		2017	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Unvested, beginning of period	178,882	\$ 37.93	196,800	\$ 24.38
Granted	218,475	\$ 39.75	119,312	\$ 42.19

Unvested, end of period	328,277	\$ 38.51	254,811	\$ 31.40

The vesting period of RSUs granted to employees range from one to five years and vest ratably over the respective vesting period, and the majority vest in three years. All RSUs granted to date to non-employee directors had a one year vesting period. The holders of RSUs are entitled to dividend equivalents. The dividend equivalents are settled in cash at the same time that the underlying RSUs vest and are subject to the same risk of forfeiture as the underlying shares. The fair value of the RSUs granted is based on the market price of the underlying shares.

**Compensation Expense**

Share based compensation expense is recognized on a straight line basis over the vesting period. The amount of expense and related tax benefit is summarized below:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
	<i>(in thousands)</i>			
Share based compensation expense	\$ 1,681	\$ 1,760	\$ 4,796	\$ 5,338
U.S. tax benefit on share based compensation expense	198	467	569	1,413

**JAMES RIVER GROUP HOLDING, LTD. AND SUBSIDIARIES**  
**Notes to Condensed Consolidated Financial Statements (continued)**

As of September 30, 2018, the Company had \$10.2 million of unrecognized share based compensation expense expected to be charged to earnings over a weighted-average period of 1.9 years.

**12. Subsequent Events**

On November 6, 2018, the Board of Directors declared a cash dividend of \$0.30 per common share. The dividend is payable on December 28, 2018 to shareholders of record on December 14, 2018.

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

*The following discussion and analysis contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors. Factors that could cause such differences are discussed in the sections entitled “Special Note Regarding Forward-Looking Statements” in this Quarterly Report on Form 10-Q, or “Quarterly Report”, and Part I, Item 1A “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017. The results of operations for the three and nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2018, or for any other future period. The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included in Part I, Item 1 of this Quarterly Report, and in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2017.*

The accompanying condensed consolidated financial statements and related notes have been prepared in accordance with United States (“U.S.”) generally accepted accounting principles (“GAAP”) and include the accounts of James River Group Holdings, Ltd. and its subsidiaries. Unless the context indicates or suggests otherwise, references to “the Company”, “we”, “us” and “our” refer to James River Group Holdings, Ltd. and its subsidiaries.

### Our Business

James River Group Holdings, Ltd. is a Bermuda-based holding company. We own and operate a group of specialty insurance and reinsurance companies with the objective of generating compelling returns on tangible equity while limiting underwriting and investment volatility. We seek to accomplish this by consistently earning profits from insurance and reinsurance underwriting and generating meaningful risk-adjusted investment returns while managing our capital opportunistically.

Our underwriting profit for the three and nine months ended September 30, 2018 was \$8.1 million and \$20.9 million, respectively. In the prior year, for the same periods, we had an underwriting profit of \$1.4 million and \$9.8 million, respectively.

We are organized into four reportable segments, which are separately managed business units:

- The Excess and Surplus Lines segment offers commercial excess and surplus lines liability and property insurance in every U.S. state, the District of Columbia, Puerto Rico and the U.S. Virgin Islands through James River Insurance Company and its wholly-owned subsidiary, James River Casualty Company;
- The Specialty Admitted Insurance segment focuses on niche classes within the standard insurance markets, such as workers’ compensation coverage for residential contractors, light manufacturing operations, transportation workers and healthcare workers and fronting business, where we retain a small percentage of the risk and seek to earn fee income by allowing other carriers and producers to use our licensure, ratings and infrastructure. This segment has admitted licenses in 49 states and the District of Columbia;
- The Casualty Reinsurance segment primarily provides proportional and working layer casualty reinsurance to third parties (primarily through reinsurance intermediaries) and stop loss reinsurance to Carolina Re Ltd. (“Carolina Re”), through JRG Reinsurance Company Ltd. (“JRG Re”), both Bermuda-based reinsurance companies. JRG Re has also in the past provided reinsurance to the Company’s U.S. based insurance subsidiaries through a quota-share reinsurance agreement; Carolina Re was formed in 2018 to do this as well; and
- The Corporate and Other segment consists of the management and treasury activities of our holding companies, interest expense associated with our debt, and expenses of our holding companies, including public company expenses, that are not reimbursed by our insurance segments.

All of our insurance and reinsurance subsidiaries have financial strength ratings of “A” (Excellent) from A.M. Best Company.

### Critical Accounting Policies and Estimates

In preparing the unaudited condensed consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities as of the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ significantly from those estimates.

The most critical accounting policies involve significant estimates and include those used in determining the reserve for losses and loss adjustment expenses, investment valuation and impairment, goodwill and intangible assets, and assumed reinsurance premiums. For a detailed discussion of each of these policies, refer to our Annual Report on Form 10-K for the year ended December 31, 2017. There have been no significant changes to any of these policies during the current year.

(1) Net retention is defined as the ratio of net written premiums to gross written premiums.

(2) Underwriting profit is a non-GAAP measure. See “Reconciliation of Non-GAAP Measures” for a reconciliation to income before tax and for additional information.

(3) Included in underwriting results for the three and nine months ended September 30, 2018 is gross fee income of \$6.8 million and \$22.4 million, respectively (\$7.0 million and \$19.8 million for the same periods in the prior year).

(4) Adjusted net operating income is a non-GAAP measure. See “Reconciliation of Non-GAAP Measures” for reconciliation to net income and for additional information.

**Three Months Ended September 30, 2018 and 2017**

The Company had an underwriting profit of \$8.1 million for the three months ended September 30, 2018. This compares to an underwriting profit of \$1.4 million for the same period in the prior year.

The results for the three months ended September 30, 2018 and 2017 include certain non-operating items that are significant to the Company. These items (on a pre-tax basis) include:

- Net realized and unrealized investment gains of \$467,000 and net realized investment losses of \$171,000 for the three months ended September 30, 2018 and 2017, respectively. See “— Investing Results” for more information on these realized investment losses and gains.
- Interest expense of \$404,000 and \$315,000 for the three months ended September 30, 2018 and 2017, respectively, relating to finance expenses in connection with a minority interest in a real estate partnership pursuant to which we are deemed an owner for accounting purposes. The debt is nonrecourse to us and was not arranged by us.

We define adjusted net operating income as net income excluding certain non-operating expenses such as net realized and unrealized gains and losses on investments, expenses related to due diligence costs for various merger and acquisition activities, professional service fees related to the filing of registration statements for the offering of securities, severance costs associated

with terminated employees, and interest and other income and expenses on a leased building that we are deemed to own for accounting purposes. We use adjusted net operating income as an internal performance measure in the management of our operations because we believe it gives our management and other users of our financial information useful insight into our results of operations and our underlying business performance. Adjusted net operating income should not be viewed as a substitute for net income calculated in accordance with GAAP, and our definition of adjusted net operating income may not be comparable to that of other companies.

Our income before taxes and net income reconcile to our adjusted net operating income as follows:

	Three Months Ended September 30,			
	2018		2017	
	Income Before Taxes	Net Income	Income Before Taxes	Net Income
	(\$ in thousands)			
Income as reported	\$ 22,116	\$ 19,581	\$ 13,589	\$ 10,351
Net realized and unrealized investment (gains) losses	(467)	(397)	171	82
Other expenses	(131)	(101)	119	93
Interest expense on leased building the Company is deemed to own for accounting purposes	404	319	315	205
Adjusted net operating income	\$ 21,922	\$ 19,402	\$ 14,194	\$ 10,731

Our combined ratio for the three months ended September 30, 2018 was 96.0%. The combined ratio is a measure of underwriting performance and represents the relationship of incurred losses, loss adjustment expenses and other operating expenses to net earned premiums. A combined ratio of less than 100% indicates an underwriting profit, while a combined ratio greater than 100% reflects an underwriting loss. The combined ratio for the three months ended September 30, 2018 includes \$12.2 million, or 6.0 percentage points, of net adverse reserve development on prior accident years, including \$10.4 million of net adverse reserve development from the Excess and Surplus Lines segment, \$833,000 of net favorable reserve development from the Specialty Admitted Insurance segment, and \$2.7 million of net adverse reserve development from the Casualty Reinsurance segment.

The combined ratio for the three months ended September 30, 2017 was 99.3%. The combined ratio for the three months ended September 30, 2017 includes \$10.0 million, or 4.9 percentage points, of catastrophe losses from Hurricane Harvey, Irma, and Maria. The combined ratio also included \$7.6 million, or 3.7 percentage points, of net favorable reserve development on prior accident years, including \$5.1 million of net favorable reserve development from the Excess and Surplus Lines segment, \$3.0 million of net favorable reserve development from the Specialty Admitted Insurance segment, and \$581,000 of net adverse reserve development from the Casualty Reinsurance segment.

Our expense ratio improved from 24.9% for the three months ended September 30, 2017 to 22.5% for the three months ended September 30, 2018. The improvement is due to a 14.5% increase in the net earned premiums of the Excess and Surplus Lines segment including in lines of business which carry relatively low expenses or that have meaningful ceding commissions. Our Excess and Surplus Lines segment has significant scale and produces a lower expense ratio than our other operating segments. The Excess and Surplus Lines segment is our largest segment and makes up 69.1% of consolidated net earned premiums for the three months ended September 30, 2018. Gross fee income for the Company decreased from \$7.0 million for the three months ended September 30, 2017 to \$6.8 million for the three months ended September 30, 2018.

#### **Nine months ended September 30, 2018 and 2017**

The Company had an underwriting profit of \$20.9 million for the nine months ended September 30, 2018. This compares to an underwriting profit of \$9.8 million for the same period in the prior year.

The results for the nine months ended September 30, 2018 and 2017 include certain non-operating items that are significant to the Company. These items (on a pre-tax basis) include:

- Net realized and unrealized investment losses of \$407,000 and net realized investment gains of \$1.2 million for the nine months ended September 30, 2018 and 2017, respectively. See “— Investing Results” for more information on these realized investment losses and gains.
- Interest expense of \$1.2 million and \$940,000 for the nine months ended September 30, 2018 and 2017, respectively, relating to finance expenses in connection with a minority interest in a real estate partnership pursuant to which we are deemed an owner for accounting purposes. The debt is nonrecourse to us and was not arranged by us.

Our income before taxes and net income reconcile to our adjusted net operating income as follows:

	Nine Months Ended September 30,			
	2018		2017	
	Income Before Taxes	Net Income	Income Before Taxes	Net Income
	(\$ in thousands)			
Income as reported	\$ 57,737	\$ 52,198	\$ 49,126	\$ 43,342

Adjusted net operating income	\$ 59,289	\$ 53,540	\$ 49,234	\$ 43,314

Our combined ratio for the nine months ended September 30, 2018 was 96.6%. The combined ratio for the nine months ended September 30, 2018 includes \$11.8 million, or 1.9 percentage points, of net adverse reserve development on prior accident years, including \$9.2 million of net adverse reserve development from the Excess and Surplus Lines segment, \$2.3 million of net favorable reserve development from the Specialty Admitted Insurance segment, and \$4.9 million of net adverse reserve development from the Casualty Reinsurance segment.

The combined ratio for the nine months ended September 30, 2017 was 98.2%. The combined ratio for the nine months ended September 30, 2017 includes \$10.0 million, or 1.8 percentage points, of catastrophe losses from Hurricane Harvey, Irma, and Maria. The combined ratio for the nine months ended September 30, 2017 also includes \$9.3 million, or 1.7 percentage points, of net favorable reserve development on prior accident years, including \$9.8 million of net favorable reserve development from the Excess and Surplus Lines segment, \$2.1 million of net favorable reserve development from the Specialty Admitted Insurance segment, and \$2.6 million of net adverse reserve development from the Casualty Reinsurance segment.

Our expense ratio improved from 26.7% for the nine months ended September 30, 2017 to 23.5% for the nine months ended September 30, 2018. The improvement is due to a 22.7% increase in the net earned premiums of the Excess and Surplus Lines segment including in lines of business which carry relatively low expenses or that have meaningful ceding commissions. Our Excess and Surplus Lines segment has significant scale and produces a lower expense ratio than our other operating segments. The Excess and Surplus Lines segment is our largest segment and makes up 66.9% of consolidated net earned premiums for the nine months ended September 30, 2018. Gross fee income for the Company increased from \$19.8 million for the nine months ended September 30, 2017 to \$22.4 million for the nine months ended September 30, 2018.

All of the Company's U.S.-domiciled insurance subsidiaries are party to an intercompany pooling agreement that distributes the net underwriting results among the group companies based on their approximate pro-rata level of statutory capital and surplus to the total Company statutory capital and surplus. Additionally, each of the Company's U.S.-domiciled insurance subsidiaries is a party to a quota share reinsurance agreement that in prior periods ceded 70% of their premiums and losses to JRG Re, and starting January 1, 2018, ceded 70% of their premiums and losses to Carolina Re, an Internal Revenue Code of 1986, as amended (the "Code"), a Section 953(d) U.S. tax paying entity domiciled in Bermuda. JRG Re also provides stop loss reinsurance to Carolina Re. We report all segment information in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" prior to the effects of intercompany reinsurance, consistent with the manner in which we evaluate the operating performance of our reportable segments.

## Premiums

Insurance premiums are earned ratably over the terms of our insurance policies, generally twelve months. Reinsurance premiums assumed are earned over the terms of the underlying policies or reinsurance contracts. Reinsurance contracts written on a “losses occurring” basis cover claims that may occur during the term of the contract or underlying insurance policy, which is typically twelve months. Reinsurance contracts which are written on a “risks attaching” basis cover claims which attach to the underlying insurance policies written during the terms of such contracts. Premiums earned on such contracts usually extend beyond the original term of the reinsurance contract, typically resulting in recognition of premiums earned over a 24-month period in proportion to the level of underlying exposure.

The following table summarizes the change in premium volume by component and business segment:

	Three Months Ended September 30,		%	Nine Months Ended September 30,		%

Gross written premiums for the Excess and Surplus Lines segment (which represents 56.2% of our consolidated gross written premiums in the first nine months of 2018) increased 12.0% and 26.5% over the corresponding three and nine month periods in the prior year. Excluding commercial auto policies, gross written premiums increased 7.4% and 18.8% over the corresponding three and nine month periods in the prior year. Policy submissions excluding commercial auto policies were 8.3% higher and 9.1% more policies were bound in the nine months ended September 30, 2018 than in the nine months ended September 30, 2017. Rates for the Excess and Surplus Lines segment were up 5.5% compared to the nine months ended September 30, 2017. The change in gross written premiums compared to the same period in 2017 was notable in several divisions as shown below:

The Commercial Auto division is focused on underwriting the hired and non-owned auto liability exposures for a variety of industry segments with a particular niche for insuring organizations that operate networks connecting independent contractors with customers.

The components of gross written premiums for the Specialty Admitted Insurance segment (which represents 32.5% of our consolidated gross written premiums for the nine months ended September 30, 2018) are as follows:

	Three Months Ended September 30,		%	Nine Months Ended September 30,		%
	2018	2017		2018	2017	
	(\$ in thousands)					
Individual risk workers' compensation premium	\$ 13,848	\$ 10,589	30.8%	\$ 39,243	\$ 32,162	22.0%
Fronting and program premium	84,759	74,249	14.2%	243,865	201,911	20.8%
Specialty Admitted gross written premium	\$ 98,607	\$ 84,838	16.2%	\$ 283,108	\$ 234,073	20.9%

Individual risk workers' compensation premium growth was driven by exposure growth from higher payrolls of our insureds in a strong economy and increased submission flow.

The premium growth in our fronting business was driven by growth in the gross written premium from our largest agency relationship, which produced \$156.9 million of gross written premium for the nine months ended September 30, 2018, up from \$131.5 million for the nine months ended September 30, 2017.

Gross written premiums for the Casualty Reinsurance segment (which represents 11.3% of our consolidated gross written premiums in the first nine months of 2018) decreased 78.7% and 55.9% from the corresponding three and nine month periods in the prior year. The reduction included a shift in the renewal date of \$49.5 million in premium from the third to the fourth quarter of 2018. The balance of the reduction in gross written premium in this segment was in line with our expectations and is consistent with our planned reductions for the Casualty Reinsurance segment as we redeploy our capital to where we believe we can make the highest operating returns on tangible equity. The Casualty Reinsurance segment generally writes large casualty-focused treaties that are expected to have lower volatility relative to property and catastrophe treaties. We rarely write stand-alone property reinsurance. When treaties that include property exposure are written, we utilize property occurrence caps, inuring reinsurance protection and low individual risk limits to minimize exposure.

#### Net Retention

The ratio of net written premiums to gross written premiums is referred to as our net premium retention. Our net premium retention is summarized by segment as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Excess and Surplus Lines	85.9%	89.1%	88.2%	89.4%
Specialty Admitted Insurance	14.2%	21.8%	15.0%	22.8%
Casualty Reinsurance	100.6%	100.0%	100.2%	100.1%
Total	62.0%	75.9%	65.8%	73.8%

The net premium retention for the Specialty Admitted Insurance segment decreased from 2017 to 2018 as a result of growth in the segment's fronting business, which generally has much lower net premium retention than our workers' compensation business. Fronting gross written premium grew 14.2% and 20.8% for the three and nine months ended September 30, 2018 compared to the corresponding period in the prior year. For the three and nine months ended September 30, 2018, the net retention on the segment's fronting business was 9.2% and 9.9%, respectively (12.0% and 12.1% in the three and nine months ended September 30, 2017, respectively), while the net retention on the workers' compensation business was 45.2% and 46.6%, respectively (90.4% and 90.3% in the three and nine months ended September 30, 2017, respectively). The significant decline in the net retention from the prior year on the workers' compensation business is due to the 50% third-party quota share reinsurance coverage purchased in this business effective October 1, 2017.

(1) Underwriting Profit is a non-GAAP Measure. See "Reconciliation of Non-GAAP Measures" for a reconciliation to income before tax and for additional information.

(2) Underwriting results include gross fee income of \$3.0 million and \$11.5 million for the three and nine months ended September 30, 2018, respectively (\$3.9 million and \$12.0 million for the same periods in the prior year).

The loss ratio of 78.6% and 78.3% for the three and nine months ended September 30, 2018 includes \$10.4 million and \$9.2 million (7.3 and 2.2 percentage points), respectively, of net adverse development in our loss estimates for prior accident years. The loss ratio of 77.5% and 74.4% for the three and nine months ended September 30, 2017, respectively, includes \$5.1 million and \$9.8 million (4.1 and 2.9 percentage points), respectively, in net favorable reserve development in our loss estimates for prior accident years.

The expense ratio for this segment declined from 14.5% and 16.5% for the three and nine months ended September 30, 2017, respectively to 13.4% and 13.7% for the three and nine months ended September 30, 2018, respectively. The decrease in the expense ratio is attributable to the increase in net earned premium of 14.5% and 22.7% for the three and nine months ended September 30, 2018, respectively, without a proportional increase in the total amount of underwriting expenses. Gross fee income contributed to a reduction in the expense ratio of 2.1 and 2.8 percentage points for the three and nine months ended September 30, 2018, respectively (3.2 and 3.6 percentage points for the same periods in the prior year).

Our commercial auto business has a lower expense ratio and higher loss ratio than the other underwriting divisions in the segment. Commercial auto made up 55.6% and 56.5% of the segment's net earned premiums for the three and nine months ended September 30, 2018, respectively (55.4% and 52.2% for the same periods in the prior year).

As a result of the items discussed above, the underwriting profit of the Excess and Surplus Lines segment increased 13.6% and 7.4%, respectively, from \$9.9 million and \$30.5 million for the three and nine months ended September 30, 2017 to \$11.3 million and \$32.7 million for the three and nine months ended September 30, 2018.

(1) Underwriting Profit is a non-GAAP Measure. See "Reconciliation of Non-GAAP Measures" for a reconciliation to income before tax and for additional information.

(2) Underwriting results include gross fee income of \$3.8 million and \$10.9 million for the three and nine months ended September 30, 2018, respectively (\$3.1 million and \$7.8 million for the same periods in the prior year).

The loss ratio of 59.3% and 60.9% for the three and nine months ended September 30, 2018 includes \$833,000 and \$2.3 million (6.0 and 5.6 percentage points), respectively, of net favorable development in our loss estimates for prior accident years. The favorable reserve development in 2018 reflects the fact that actual loss emergence of the workers' compensation book has been better than expected. The loss ratio of 64.7% and 64.4% for the three and nine months ended September 30, 2017 includes \$3.0 million and \$2.1 million (15.7 and 4.0 percentage points), respectively, of net favorable reserve development in our loss estimates for prior accident years.

The expense ratio of the Specialty Admitted Insurance segment was 28.0% and 28.5% for the three and nine months ended September 30, 2018 compared to the prior year ratios of 30.9% and 31.4%, respectively. The expense ratio declined in 2018 for this segment due to gross fee income from the fronting business which increased 23.2% and 39.2% for the three and nine months ended September 30, 2018 compared to the same periods in the prior year and to ceding commissions received on the 50% third-party quota share reinsurance coverage purchased on individual risk workers' compensation business effective October 1, 2017.

As a result of the items discussed above, the underwriting profit of the Specialty Admitted Insurance segment increased 107.9% and 95.0% from \$851,000 and \$2.2 million for the three and nine months ended September 30, 2017, respectively, to \$1.8 million and \$4.4 million for the three and nine months ended September 30, 2018.

(1) *Underwriting Profit is a non-GAAP Measure. See “Reconciliation of Non-GAAP Measures” for a reconciliation to income before tax and for additional information.*

The Casualty Reinsurance segment focuses on lower volatility, proportional reinsurance which requires larger ceding commissions resulting in a higher commission expense than in our other segments.

The loss ratio of 62.6% and 63.0% for the three and nine months ended September 30, 2018 includes \$2.7 million and \$4.9 million (5.4 and 3.0 percentage points), respectively, of net adverse development in our loss estimates for prior accident years. The adverse reserve development was primarily related to losses from risk profiles and treaty structures that we no longer underwrite. The loss ratio of 71.1% and 67.8% for the three and nine months ended September 30, 2017 includes \$581,000 and \$2.6 million (1.0 and 1.7 percentage points), respectively, in net adverse reserve development in our loss estimates for prior accident years, primarily related to the 2011 and 2013 workers' compensation business from one reinsured.

The expense ratio of the Casualty Reinsurance segment was 34.2% and 33.9% for the three and nine months ended September 30, 2018, respectively, compared to the prior year ratios of 33.9% and 34.7%, respectively. The expense ratio for the nine months ended September 30, 2017 was impacted by the correction of a contingent commission accrual and related commission expense, which increased underwriting expenses by \$2.0 million in the nine months ended September 30, 2017.

As a result of the items discussed above, underwriting profit for the Casualty Reinsurance segment was \$1.6 million and \$5.0 million for the three and nine months ended September 30, 2018, respectively, compared to underwriting losses of \$2.9 million and \$3.9 million for the three and nine months ended September 30, 2017, respectively.

### Reserves

An indicator of reserve strength that we monitor closely is the percentage of our gross and net loss reserves that are comprised of incurred but not reported (“IBNR”) reserves.

The Company’s gross reserve for losses and loss adjustment expenses at September 30, 2018 was \$1,569.8 million. Of this amount, 63.3% relates to amounts that are IBNR. This amount was 64.6% at December 31, 2017. The Company’s gross reserves for losses and loss adjustment expenses by segment are summarized as follows:

	Gross Reserves at September 30, 2018		
	Case	IBNR	Total
	(\$ in thousands)		
Excess and Surplus Lines	\$ 316,268	\$ 591,825	\$ 908,093

Casualty Reinsurance	108,181	163,871	272,052
Total	\$ 576,508	\$ 993,253	\$ 1,569,761

At September 30, 2018, the amount of net reserves of \$1,145.4 million that related to IBNR was 62.7%. This amount was 65.0% at December 31, 2017. The Company’s net reserves for losses and loss adjustment expenses by segment are summarized as follows:

	Net Reserves at September 30, 2018		
	Case	IBNR	Total
	(\$ in thousands)		
Excess and Surplus Lines	\$ 290,061	\$ 500,577	\$ 790,638

### Other Operating Expenses

In addition to the underwriting, acquisition, and insurance expenses of the Excess and Surplus Lines segment, the Specialty Admitted Insurance segment, and the Casualty Reinsurance segment discussed previously, other operating expenses also includes the expenses of the Corporate and Other segment.

### Corporate and Other Segment

Other operating expenses for the Corporate and Other segment include personnel costs associated with the Bermuda and U.S. holding companies, professional fees, and various other corporate expenses that are included in our calculation of our expense ratio and our combined ratio. Other operating expenses of the Corporate and Other segment represent the expenses of both the

Bermuda and U.S. holding companies that were not reimbursed by our subsidiaries, including costs associated with our internal quota share, rating agencies and strategic initiatives. These costs vary from period-to-period based on the status of these initiatives.

For both the three months ended September 30, 2018 and 2017, the total operating expenses of the Corporate and Other segment were \$6.5 million. For the nine months ended September 30, 2018 and 2017, the total operating expenses of the Corporate and Other segment were \$21.3 million and \$19.1 million, respectively, representing a 11.5% increase over the prior year. The increases were driven by compensation costs, including stock compensation expenses, associated with increases in headcount and costs associated with the formation and operations of Carolina Re (a new Class 3A reinsurer that has made an irrevocable election to be taxed as a U.S. domestic corporation under Section 953(d) of the Code. See “Income Tax Expense” for additional discussions regarding this newly formed 953(d) reinsurer).

### Investing Results

Net investment income was \$16.4 million and \$45.8 million for the three and nine months ended September 30, 2018, respectively, compared to \$14.9 million and \$45.3 million for the same periods in the prior year. The change in our net investment income is as follows:

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2018	2017	% Change	2018	2017	% Change

Total net investment income	\$ 16,410	\$ 14,880	10.3 %	\$ 45,801	\$ 45,327	1.0 %

Net investment income from renewable energy LLCs declined from \$1.5 million and \$8.6 million in three and nine months ended September 30, 2017, respectively, to \$329,000 and \$2.1 million in the three and nine months ended September 30, 2018, respectively. These investments are interests in certain limited liability companies that are managed by an entity for which two of our directors are officers. The Company’s Non-Executive Chairman has invested in certain of these LLCs. Together, the carrying value of these investments was \$31.9 million at September 30, 2018. Our interests in these companies are classified as “other invested assets” and the equity method is being used to account for the investments. Excluding private investments, our net investment income increased by 16.8% and 16.3% for the three and nine months ending September 30, 2018, respectively, over the same periods in the prior year. This increase in net investment income was due to a 15.3% and 13.7% increase in our average cash and invested assets for the three and nine months ended September 30, 2018 compared to the same periods in the prior year, as well as increases in average investment yields. The average duration of our fixed maturity portfolio was 3.6 years at September 30, 2018.

Major categories of the Company’s net investment income are summarized as follows:

Annualized gross investment yield on:				
Average cash and invested assets	4.0%	4.2%	3.8%	4.3%
Average fixed maturity securities	3.8%	3.5%	3.6%	3.5%

Of our total cash and invested assets of \$1,803.7 million at September 30, 2018, \$184.4 million represents the cash and cash equivalents portion of the portfolio. The majority of the portfolio, or \$1,154.5 million, is comprised of fixed maturity securities that are classified as available-for-sale and carried at fair value with unrealized gains and losses on these securities reported, net of applicable taxes, as a separate component of accumulated comprehensive income or loss. Also included in our investments are \$262.8 million of bank loan participations, \$84.8 million of equity securities, \$40.2 million of short-term investments, and \$77.0 million of other invested assets.

The \$262.8 million of bank loan participations in our investment portfolio are classified as held-for-investment and reported at amortized cost, net of any allowance for credit losses. Changes in this credit allowance are included in realized gains or losses. At September 30, 2018, there was no allowance for credit losses, as none of the loans in the Company's portfolio were considered impaired. These bank loan participations are primarily senior, secured floating-rate debt rated "BB", "B", or "CCC" by Standard & Poor's or an equivalent rating from another nationally recognized statistical rating organization, and are therefore below investment grade. Bank loans include assignments of and participations in, performing and non-performing senior corporate debt generally acquired through primary bank syndications and in secondary markets. They consist of, but are not limited to, term loans, the funded and unfunded portions of revolving credit loans, and similar loans and investments. At September 30, 2018 and December 31, 2017, the fair market value of these securities was \$262.4 million and \$236.5 million, respectively.

For the nine months ended September 30, 2018, the Company recognized net realized and unrealized investment losses of \$407,000 (\$467,000 of net realized and unrealized investment gains for the three months ended September 30, 2018), including \$695,000 of losses for the change in the fair value of equity securities, \$306,000 of net realized investment losses on the sale of fixed maturity securities, \$1.5 million of net realized investment gains on the sale of bank loan securities (including an \$807,000 realized gain on the repayment of the loan to the producer and supplier of power in Puerto Rico described below), and \$851,000 of net realized investment losses from an increase in our bank loan credit allowance.

For the nine months ended September 30, 2017, the Company recognized net realized investment gains of \$1.2 million (\$171,000 net realized investment losses for the three months ended September 30, 2017), including \$1.0 million of net realized investment gains recognized on the sale of bank loan securities, \$403,000 of net realized investment gains on the sale of fixed maturity securities, \$364,000 of net realized investment gains on the sale of equity securities, and \$594,000 of net realized investment losses from an increase in our bank loan credit allowance.

In conjunction with its outside investment managers, the Company performs quarterly reviews of all securities within its investment portfolio to determine whether any impairment has occurred.

Management concluded that none of the loans in the Company's bank loan portfolio were impaired as of September 30, 2018. At December 31, 2017, the aggregate allowance for credit losses was \$3.2 million on impaired loans from five issuers with a total carrying value of \$5.1 million and unpaid principal of \$8.4 million.

At December 31, 2017, the Company held a participation in a loan with unpaid principal of \$807,000 issued by a company that produces and supplies power to Puerto Rico through a power purchase agreement with Puerto Rico Electric Power Authority ("PREPA"), a public corporation and governmental agency of the Commonwealth of Puerto Rico. PREPA's credit strength and ability to make timely payments had been impacted by the economic conditions in Puerto Rico. The loan was scheduled to mature in November 2017, but the issuer deferred payment until March 2018. Based on this deferral request and the uncertainty regarding repayment, management had concluded that an allowance for credit losses should be established on the loan to reduce its carrying value to \$0 at December 31, 2017. In the first quarter of 2018, the remaining principal balance on the loan was repaid, and the Company recognized an \$807,000 realized investment gain associated with the repayment.

At September 30, 2018, 99.7% of the Company's fixed maturity security portfolio was rated "BBB-" or better ("investment grade") by Standard & Poor's or received an equivalent rating from another nationally recognized rating agency.

Management concluded that none of the fixed maturity securities with an unrealized loss at September 30, 2018 experienced an other-than-temporary impairment. Management does not intend to sell available-for-sale securities in an unrealized loss position, and it is not "more likely than not" that the Company will be required to sell these securities before a recovery in their value to their amortized cost basis occurs.

The amortized cost and fair value of our available-for-sale fixed maturity securities were as follows:

At September 30, 2018, the Company had no investments in securitizations of alternative-A mortgages or sub-prime mortgages.

### Interest Expense

Interest expense was \$3.0 million and \$2.3 million for the three months ended September 30, 2018 and 2017, respectively (\$8.5 million and \$6.7 million for the respective nine month periods). The increase in interest expense over the prior year reflects higher LIBOR rates and a \$10.0 million increase in Senior Debt outstanding. See “—Liquidity and Capital Resources—Sources and Uses of Funds” for more information regarding our senior bank debt facility and trust preferred securities.

### Amortization of Intangibles

The Company recorded \$149,000 and \$447,000 of amortization of intangible assets for each of the three and nine months ended September 30, 2018 and 2017, respectively.

### Income Tax Expense

Our effective tax rate fluctuates from period to period based on the relative mix of income reported by country and the respective tax rates imposed by each tax jurisdiction. For the three months ended September 30, 2018 and 2017, our U.S. federal income tax expense was 11.5% and 23.8% of income before taxes, respectively (9.6% and 11.8% for the nine months ended September 30, 2018 and 2017, respectively). For U.S.-sourced income, the Company’s U.S. federal income tax expense differs from the amounts computed by applying the federal statutory income tax rate to income before taxes due primarily to interest income on tax-advantaged state and municipal securities (state and municipal securities represent 11.8% and 12.2% of our available-for-sale securities at September 30, 2018 and 2017, respectively), dividends received income, and excess tax benefits on share based compensation. Income tax expense for the three and nine months ended September 30, 2018 reflects both the reduction in the enacted U.S. Federal tax rate from 35% in 2017 to 21% in 2018 as a result of Public Law No. 115-97, informally titled the Tax Cuts and Jobs Act (the “Tax Act”), and the changes in our organizational structure in response to the Tax Act.

In response to the Tax Act, we made changes to our structure in 2018 to minimize the impact of the base erosion and anti-abuse tax (“BEAT”) that included the formation of Carolina Re, a Bermuda-domiciled, wholly-owned subsidiary of James River Group, Inc. Carolina Re is a Class 3A reinsurer and made an irrevocable election to be taxed as a U.S. domestic corporation under Section 953(d) of the Code. Effective January 1, 2018, we generally discontinued ceding 70% of our U.S.-written premiums to JRG Re and instead ceded 70% of our U.S.-written premiums to Carolina Re. Carolina Re also entered into a stop loss reinsurance agreement with JRG Re. While Carolina Re is subject to U.S. corporate income tax, we will not be subject to BEAT in 2018 if we

have sufficient regular U.S. income tax liability compared to the BEAT liability. The applicability of BEAT depends on a number of factors, and it is uncertain whether we will be subject to BEAT in future periods.

Financial results reflect provisional amounts related to the December 2017 enactment of the Tax Act. These provisional estimates are based on the Company's initial analysis and current interpretation of the legislation. Given the complexity of the legislation, anticipated guidance from the U.S. Treasury, and the potential for additional guidance from the SEC or the Financial Accounting Standards Board, these estimates may be adjusted during 2018.

## LIQUIDITY AND CAPITAL RESOURCES

### *Sources and Uses of Funds*

We are organized as a Bermuda holding company with our operations conducted by our wholly-owned subsidiaries. Accordingly, our holding company may receive cash through loans from banks, issuance of equity and debt securities, corporate service fees or dividends received from our subsidiaries, and/or other transactions. Our U.S. holding company may receive cash in a similar manner and also through payments from our subsidiaries pursuant to our U.S. consolidated tax allocation agreement.

The payment of dividends by our subsidiaries to us is limited by statute. In general, the laws and regulations applicable to our domestic insurance subsidiaries limit the aggregate amount of dividends or other distributions that they may declare or pay within any 12-month period without advance regulatory approval. Generally, the limitations are based on the greater of statutory net income for the preceding year or 10.0% of statutory surplus at the end of the preceding year. In addition, insurance regulators have broad powers to prevent the reduction of statutory surplus to inadequate levels and could refuse to permit the payment of dividends calculated under any applicable formula. The maximum amount of dividends and return of capital available to us from JRG Re in 2018 is calculated to be approximately \$102.3 million. However, any dividend payment is contingent upon continued compliance with Bermuda regulatory requirements, including but not limited to the enhanced solvency requirement calculations. The maximum amount of dividends available to the U.S. holding company from our U.S. insurance subsidiaries during 2018 without regulatory approval is \$37.0 million. On April 30, 2018, a \$15.0 million dividend was paid to the U.S. holding company by James River Insurance Company.

At September 30, 2018, the Bermuda holding company had \$1.0 million of cash and cash equivalents. The U.S. holding company had \$52.6 million of cash and invested assets, comprised of cash and cash equivalents of \$2.6 million, short-term investments of \$1.3 million, and other invested assets of \$48.6 million, which are not subject to regulatory restrictions. Additionally, our U.K. intermediate holding company had no invested assets and cash of less than ten thousand dollars at September 30, 2018.

Our net written premium to surplus ratio (defined as the ratio of net written premiums to regulatory capital and surplus) is reviewed by management as well as our rating agency as a component of leverage and efficiency of deployed capital. For the nine months ended September 30, 2018 and 2017, our annualized net written premium to surplus ratio was 1.1 to 1.0 and 1.2 to 1.0, respectively.

The Company has a \$215.0 million senior revolving credit facility (as amended or amended and restated, the "2013 Facility"). The 2013 Facility is comprised of the following at September 30, 2018:

- A \$102.5 million secured revolving facility used by JRG Re to issue letters of credit for the benefit of third-party reinsureds. This portion of our credit facility is secured by our investment securities. At September 30, 2018, the Company had \$100.8 million of letters of credit issued under the secured facility.
- A \$112.5 million unsecured revolving facility to meet the working capital needs of the Company. All unpaid principal on the revolver is due at maturity. Interest accrues quarterly and is payable in arrears at 3-month LIBOR plus a margin which is currently 1.5% and is subject to change according to terms in the credit agreement. At September 30, 2018, the Company had a drawn balance of \$73.3 million outstanding on the unsecured revolver.

The 2013 Facility has been amended from time to time since its inception in 2013. On December 7, 2016, the Company entered into an Amended and Restated Credit Agreement for the 2013 Facility which, among other things, extended the maturity date of the 2013 Facility until December 7, 2021 and modified other terms including reducing the rate of interest and reducing the number of financial covenants. On June 8, 2017, the Company entered into a First Amendment to the 2013 Facility, which among other things, modified the financial covenants and increased the amount of additional debt the Company may incur under new financings, subject to compliance with certain conditions.

The 2013 Facility contains certain financial and other covenants (including risk-based capital, minimum shareholders' equity levels, maximum ratios of total debt outstanding to total capitalization and minimum fixed charge coverage ratios) with which the Company is in compliance at September 30, 2018.

On August 2, 2017, the Company, and its wholly-owned subsidiary, JRG Re, together as borrowers, entered into a credit agreement (the "2017 Facility") that provides the Company with a revolving line of credit of up to \$100 million, which may be used for loans and letters of credit made or issued, at the borrowers' option, on a secured or unsecured basis. Obligations under

the 2017 Facility will carry a variable rate of interest subject to terms in the credit agreement and will mature 30 days after notice of termination from the lender. The 2017 Facility contains certain financial and other covenants with which we are in compliance at September 30, 2018. The loans and letters of credit made or issued under the revolving line of credit of the 2017 Facility may be used to finance the borrowers' general corporate purposes. At September 30, 2018, unsecured loans of \$10.0 million and secured letters of credit totaling \$6.9 million were outstanding on the 2017 Facility.

In May 2004, we issued \$15.0 million of senior debt due April 29, 2034, with net proceeds to us of \$14.5 million. The senior debt is not redeemable by the holder or subject to sinking fund requirements. Interest accrues quarterly and is payable in arrears at a floating rate per annum equal to the 3-month LIBOR plus 3.85%. This senior debt is redeemable at par prior to its stated maturity at our option in whole or in part. The terms of the senior debt contain certain covenants, with which we are in compliance at September 30, 2018, and which, among other things, restrict our ability to assume senior indebtedness secured by our U.S. holding company's common stock or its subsidiaries' capital stock or to issue shares of its subsidiaries' capital stock.

From May 2004 through January 2008, we sold trust preferred securities through five Delaware statutory trusts sponsored and wholly-owned by the Company or its subsidiaries. Each trust used the net proceeds from the sale of its trust preferred securities to purchase our floating-rate junior subordinated debt.

The following table summarizes the nature and terms of the junior subordinated debt and trust preferred securities outstanding at September 30, 2018 (including the Company's repurchases of a portion of these trust preferred securities):

	James River Capital Trust I	James River Capital Trust II	James River Capital Trust III	James River Capital Trust IV	Franklin Holdings II (Bermuda) Capital Trust I

All of the junior subordinated debt is currently redeemable at 100.0% of the unpaid principal amount at our option.

The junior subordinated debt contains certain covenants with which we are in compliance as of September 30, 2018.

At September 30, 2018 and December 31, 2017, the ratio of total debt outstanding, including both senior debt and junior subordinated debt, to total capitalization (defined as total debt plus total stockholders' equity) was 22.5% and 22.6%, respectively. Having debt as part of our capital structure allows us to generate a higher return on equity and greater book value per share results than we could by using equity capital alone.

#### **Ceded Reinsurance**

Our insurance segments enter into reinsurance contracts to limit our exposure to potential losses arising from large risks, to protect against the aggregation of several risks in a common loss occurrence, and to provide additional capacity for growth. Our reinsurance is contracted under excess of loss and quota share reinsurance contracts. In excess of loss reinsurance, the reinsurer agrees to assume all or a portion of the ceding company's losses in excess of a specified amount. The premiums payable to the reinsurer are negotiated by the parties based on their assessment of the amount of risk being ceded to the reinsurer because the reinsurer does not share proportionately in the ceding company's losses. In quota share reinsurance, the reinsurer agrees to assume a specified percentage of the ceding company's losses arising out of a defined class of business in exchange for a corresponding percentage of premiums. For the three months ended September 30, 2018 and 2017, our net premium retention was 62.0% and 75.9%, respectively (65.8% and 73.8% for the nine month periods, respectively).

The following is a summary of our Excess and Surplus Lines segment's ceded reinsurance in place as of September 30, 2018:

	Company Retention
Casualty	
Primary Specialty Casualty, including Professional Liability	Up to \$1.0 million per occurrence, subject to a \$1.0 million aggregate deductible.
Primary Casualty	Up to \$2.0 million per occurrence. (1)
Excess Casualty	Up to \$1.0 million per occurrence. (2)
Property	Up to \$5.0 million per event. (3)

(1) Total exposure to any one claim is generally \$1.0 million.

(2) For policies with an occurrence limit of \$1.0 million or higher, the excess casualty treaty is set such that our retention is \$1.0 million or less. For policies where we also write an underlying primary casualty policy, the net excess casualty limit is added to the primary limit and the retention remains the same at \$1.0 million.

(3) The property catastrophe reinsurance treaty has a limit of \$40.0 million with one reinstatement.

In our Excess and Surplus Lines segment, we write a small book of excess property insurance, but we do not write primary property insurance. The Excess and Surplus Lines segment has a surplus share reinsurance treaty in effect that was specifically designed to cover property risks. The surplus share treaty along with facultative reinsurance helps ensure that our net retained limit per risk will be \$5.0 million or less.

We use catastrophe modeling software to analyze the risk of severe losses from hurricanes and earthquakes on our exposure. We utilize the model in our risk selection, pricing, and to manage our overall portfolio probable maximum loss ("PML") accumulations. A PML is an estimate of the amount we would expect to pay in any one catastrophe event within a given annual probability of occurrence (i.e. a return period or loss exceedance probability). Based upon the modeling of our Excess and Surplus Lines segment, a \$45.0 million gross catastrophe loss would exceed our 1 in 1,000 year PML. In the event of a \$45.0 million gross property catastrophe loss to the Excess and Surplus Lines segment, we estimate our pre-tax cost at approximately \$7.1 million, including reinstatement premiums and net retentions. In addition to this retention, we would retain any losses in excess of our reinsurance coverage limits.

Our Specialty Admitted Insurance segment purchases reinsurance for at least 50% of the exposed limits on specialty admitted property-casualty business. The segment enters into reinsurance contracts for the individual risk workers' compensation business as well as fronting and program business. While the segment focuses on casualty business, incidental property risk is incurred in the fronting and program business. The segment is covered for \$44.0 million in excess of \$1.0 million per occurrence to manage its property exposure to an approximate 1 in 1,000 year PML.

The following is a summary of our Specialty Admitted Insurance segment's ceded reinsurance in place as of September 30, 2018:

Line of Business	Coverage
Casualty	
Workers' Compensation	Excess of loss coverage for \$29.4 million in excess of \$600,000. (1)
Workers' Compensation – Program	Quota share coverage for 50% of the first \$600,000 per occurrence. (1)(2)
Commercial Auto – Programs	Quota share coverage for 90% of \$1.0 million per occurrence.
General Liability – Program	Quota share coverage for 90% of the first \$1.0 million per occurrence and excess of loss coverage for \$1.0 million in excess of \$1.0 million per occurrence.
Property	Excess of loss coverage for \$44.0 million in excess of \$1.0 million.

(1) Excluding one program which has quota share coverage for 90% of the first \$1.0 million per occurrence and excess of loss coverage for \$49.0 million in excess of \$1.0 million.

(2) Includes individual risk expansion states and any residual market pools.

In our Casualty Reinsurance segment, we also have limited property catastrophe exposure, primarily through auto physical damage coverage.

In the aggregate, we believe our pre-tax group-wide PML from a 1 in 1,000 year property catastrophe event would not exceed \$10.0 million, inclusive of reinstatement premiums payable.

We also have a clash and contingency reinsurance treaty to cover both the Excess and Surplus Lines and Specialty Admitted Insurance segments in the event of a claims incident involving more than one of our insureds. The treaty covers \$10.0 million in excess of a \$2.0 million retention for loss occurrences within the treaty term. This coverage has two reinstatements in the event we exhaust any of the coverage.

The Company's insurance segments remain liable to policyholders if its reinsurers are unable to meet their contractual obligations under applicable reinsurance agreements. We establish allowances for amounts considered uncollectible. At September 30, 2018, there was no allowance for such uncollectible reinsurance recoverables. To minimize exposure to significant losses from reinsurance insolvencies, the Company evaluates the financial condition of its reinsurers and monitors concentrations of credit risk. The Company generally seeks to purchase reinsurance from reinsurers with A.M. Best financial strength ratings of "A-" (Excellent) or better. The Company's reinsurance contracts generally require reinsurers that are not authorized as reinsurers under U.S. state insurance regulations or that experience rating downgrades from rating agencies below specified levels to fund their share of the Company's ceded outstanding losses and loss adjustment expense reserves, typically through the use of irrevocable and unconditional letters of credit. In fronting arrangements, which the Company conducts through its Specialty Admitted Insurance segment, we are subject to credit risk with regard to insurance companies who act as reinsurers for us in such arrangements. We customarily require a collateral trust arrangement to secure the obligations of the insurance entity for whom we are fronting.

At September 30, 2018, we had reinsurance recoverables on unpaid losses of \$424.4 million and reinsurance recoverables on paid losses of \$18.8 million, and all material recoverable amounts were from companies with A.M. Best ratings of "A-" or better or collateral had been posted by the reinsurer for our benefit.

#### **Credit Risk on Amounts Recoverable from an Indemnifying Party**

The Company is also exposed to credit risk relating to a set of insurance contracts with an insured group of companies under which the Company pays losses and loss adjustment expenses on the contract. The Company has indemnity agreements with this group of insured parties (non-insurance entities) and is contractually entitled to receive reimbursement for a significant portion of the losses and loss adjustment expenses paid on behalf of the insured parties and other expenses incurred by the Company. The insured parties are required to collateralize all amounts currently due to the Company and to provide additional collateral sufficient to cover the amounts that may be recoverable under the indemnity agreements, including among other things case loss and loss adjustment expense reserves, IBNR loss and loss adjustment expense reserves, extra contractual obligations and excess of policy limits liabilities. This collateral is currently provided through a collateral trust arrangement established in favor of the Company by a captive insurance company affiliate of the insured group. At September 30, 2018, the cash equivalent collateral held in the collateral trust arrangement was approximately \$1,014.7 million, which exceeds the amount of claims receivable and unpaid reported losses and loss adjustment expenses outstanding. The Company has ongoing exposure to estimated losses and expenses on these contracts growing at a faster pace than growth in our collateral balances. In addition, we have credit exposure if our estimates of future losses and loss adjustment expenses and other amounts recoverable, which are the basis for establishing collateral balances, are lower than actual amounts paid or payable. The amount of our credit exposure in any of these instances could be material. To mitigate these risks, we closely and frequently monitor our exposure compared to our collateral held, and we request additional collateral when our analysis indicates that we have uncollateralized exposure.

#### **Cash Flows**

Our sources of funds consist primarily of premiums written, investment income, reinsurance recoveries and proceeds from offerings of debt and equity securities and from sales and redemptions of investments. We use operating cash flows primarily to pay operating expenses, losses and loss adjustment expenses, reinsurance premiums, and income taxes. The following table summarizes our cash flows:

	<b>Nine Months Ended September 30,</b>	
	<b>2018</b>	<b>2017</b>
	<i>(\$ in thousands)</i>	
<b>Cash and cash equivalents provided by (used in):</b>		
Operating activities	\$ 251,913	\$ 121,001
Investing activities	(205,574)	(92,002)
Financing activities	(25,417)	(32,283)
<b>Change in cash and cash equivalents</b>	<b>\$ 20,922</b>	<b>\$ (3,284)</b>

Cash provided by operating activities grew from \$121.0 million for the nine months ended September 30, 2017 to \$251.9 million for the nine months ended September 30, 2018. The growth in reserves for losses and loss adjustment expenses exceeded the growth in premiums receivable by \$314.6 million for the nine months ended September 30, 2018 compared to \$118.2 million in the nine months ended September 30, 2017. The fact that we are collecting premiums receivable at a quicker rate than we are

paying loss and loss adjustment expenses has a favorable impact on our cash provided by operating activities for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017.

Cash used in financing activities for the nine months ended September 30, 2018 and 2017 included \$27.0 million and \$26.6 million of dividends paid to shareholders, respectively.

### Ratings

The A.M. Best financial strength rating for our group’s regulated insurance subsidiaries is “A” (Excellent). This rating reflects A.M. Best’s opinion of our insurance subsidiaries’ financial strength, operating performance and ability to meet obligations to policyholders and is not an evaluation directed towards the protection of investors. The rating for our operating insurance and reinsurance companies of “A” (Excellent) is the third highest rating of the thirteen ratings issued by A.M. Best and is assigned to insurers that have, in A.M. Best’s opinion, an excellent ability to meet their ongoing obligations to policyholders.

The financial strength ratings assigned by A.M. Best have an impact on the ability of our regulated subsidiaries to attract and retain agents and brokers and on the risk profiles of the submissions for insurance that our subsidiaries receive. The “A” (Excellent) ratings assigned to our insurance and reinsurance subsidiaries are consistent with our business plans and we believe allow our subsidiaries to actively pursue relationships with the agents and brokers identified in their marketing plans.

### EQUITY

The Company issued 253,438 common shares in the nine months ended September 30, 2018 with 210,134 new shares related to stock option exercises and 43,304 new shares related to vesting of RSUs. The total common shares outstanding increased from 29,696,682 at December 31, 2017 to 29,950,120 at September 30, 2018.

#### Share Based Compensation Expense

For the three months ended September 30, 2018 and 2017, the Company recognized \$1.7 million and \$1.8 million, respectively, of share based compensation expense (\$4.8 million and \$5.3 million for the respective nine month periods). As of September 30, 2018, the Company had \$10.2 million of unrecognized share based compensation expense expected to be charged to earnings over a weighted-average period of 1.9 years.

All of the outstanding options vest over two or four years and have a contractual life of seven years from the original date of grant.

**RSUs**

The following table summarizes RSU activity:

	Nine Months Ended September 30,			
	2018		2017	
	Shares	Weighted-Average Grant Date Fair Value	Shares	Weighted-Average Grant Date Fair Value
Unvested, beginning of period	178,882	\$ 37.93	196,800	\$ 24.38
Granted	218,475	\$ 39.75	119,312	\$ 42.19

Unvested, end of period	<u>328,277</u>	\$ 38.51	<u>254,811</u>	\$ 31.40

The vesting period of RSUs granted to employees range from one to five years and vest ratably over the respective vesting period, and the majority vest in three years. All RSUs granted to date to non-employee directors had a one year vesting period.

## RECONCILIATION OF NON-GAAP MEASURES

### Reconciliation of Underwriting Profit

We believe that the disclosure of underwriting profit by individual segment and of the Company as a whole is useful to investors, analysts, rating agencies and other users of our financial information in evaluating our performance because our objective is to consistently earn underwriting profits. We evaluate the performance of our segments and allocate resources based primarily on underwriting profit. Our definition of underwriting profit may not be comparable to that of other companies.

The following table reconciles the underwriting profit by individual segment and for the entire Company to consolidated income before U.S. Federal income taxes:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
	(in thousands)			
Underwriting profit (loss) of the insurance segments:				
Excess and Surplus Lines	\$ 11,302	\$ 9,946	\$ 32,718	\$ 30,475
Specialty Admitted Insurance	1,769	851	4,380	2,246
Casualty Reinsurance	1,576	(2,933)	5,049	(3,863)
Total underwriting profit of insurance segments	14,647	7,864	42,147	28,858
Other operating expenses of the Corporate and Other segment	(6,526)	(6,507)	(21,264)	(19,063)
Underwriting profit (1)	8,121	1,357	20,883	9,795
Net investment income	16,410	14,880	45,801	45,327

Amortization of intangible assets	(149)	(149)	(447)	(447)
Other income and expenses	258	(24)	366	(81)
Interest expense	(2,991)	(2,304)	(8,459)	(6,651)
Income before taxes	\$ 22,116	\$ 13,589	\$ 57,737	\$ 49,126

(1) Included in underwriting results for the three and nine months ended September 30, 2018 is gross fee income of \$6.8 million and \$22.4 million, respectively (\$7.0 million and \$19.8 million for the same periods in the prior year).

### Reconciliation of Adjusted Net Operating Income

We define adjusted net operating income as net income excluding certain non-operating expenses such as net realized investment gains and losses, expenses related to due diligence costs for various merger and acquisition activities, professional service fees related to the filing of registration statements for the offering of securities, severance costs associated with terminated employees and interest and other expenses on a leased building that we are deemed to own for accounting purposes. We use adjusted net operating income as an internal performance measure in the management of our operations because we believe it gives our management and other users of our financial information useful insight into our results of operations and our underlying business performance. Adjusted net operating income should not be viewed as a substitute for net income calculated in accordance with GAAP, and our definition of adjusted net operating income may not be comparable to that of other companies.

Our income before taxes and net income reconcile to our adjusted net operating income as follows:

	Three Months Ended September 30,			
	2018		2017	
	Income Before Taxes	Net Income	Income Before Taxes	Net Income
	(\$ in thousands)			
Income as reported	\$ 22,116	\$ 19,581	\$ 13,589	\$ 10,351
Net realized and unrealized (gains) losses on investments	(467)	(397)	171	82
Other expenses	(131)	(101)	119	93
Interest expense on leased building the Company is deemed to own for accounting purposes	404	319	315	205
Adjusted net operating income	\$ 21,922	\$ 19,402	\$ 14,194	\$ 10,731

Other expenses	(34)	45	351	361
Interest expense on leased building the Company is deemed to own for accounting purposes	1,179	931	940	611
Adjusted net operating income	<u>\$ 59,289</u>	<u>\$ 53,540</u>	<u>\$ 49,234</u>	<u>\$ 43,314</u>

#### **Tangible Equity (per Share) and Pre Dividend Tangible Equity (per Share)**

Key financial measures that we use to assess our longer term financial performance include the percentage growth in our tangible equity per share and our return on tangible equity. We believe tangible equity is a good measure to evaluate the strength of our balance sheet and to compare returns relative to this measure. For the nine months ended September 30, 2018, our tangible equity per share decreased by 0.2%. Absent the \$27.2 million in dividends to shareholders in the nine months ended September 30, 2018, our tangible equity per share increased by 5.4% for the nine months ended September 30, 2018. Our operating return on tangible shareholders' equity was 15.1% for the nine months ended September 30, 2018.

We define tangible equity as the sum of shareholders' equity less goodwill and intangible assets (net of amortization). Our definition of tangible equity may not be comparable to that of other companies, and it should not be viewed as a substitute for shareholders' equity calculated in accordance with GAAP. The following table reconciles shareholders' equity to tangible equity as of September 30, 2018 and December 31, 2017 and reconciles tangible equity to tangible equity before dividends as of September 30, 2018:

	September 30, 2018		December 31, 2017	
	Equity	Equity per Share	Equity	Equity per Share
	(\$ in thousands, except share amounts)			
Shareholders' equity	\$ 697,408	\$ 23.29	\$ 694,699	\$ 23.39
Less:				
Goodwill	181,831	6.07	181,831	6.12
Intangible assets	37,887	1.27	38,334	1.29
Tangible equity	<u>\$ 477,690</u>	<u>\$ 15.95</u>	<u>\$ 474,534</u>	<u>\$ 15.98</u>
Dividends to shareholders for the nine months ended September 30, 2018	27,189	0.90		
Pre-dividend tangible equity	<u>\$ 504,879</u>	<u>\$ 16.85</u>		

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Market risk is the risk of economic losses due to adverse changes in the estimated fair value of a financial instrument as the result of changes in equity prices, interest rates, foreign currency exchange rates and commodity prices. Our consolidated balance sheets include assets and liabilities with estimated fair values that are subject to market risk. Our primary market risks have been interest rate risk associated with investments in fixed maturities and equity price risk associated with investments in equity securities. We do not have material exposure to foreign currency exchange rate risk or commodity risk.

There have been no material changes in market risk from the information provided in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2017.

### **Item 4. Controls and Procedures**

#### ***Evaluation of Disclosure Controls and Procedures***

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports we file under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), as appropriate, to allow timely decisions regarding required financial disclosure. In connection with the preparation of this quarterly report on Form 10-Q, our management carried out an evaluation, under the supervision and with the participation of our management, including the CEO and CFO, as of September 30, 2018, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of September 30, 2018.

#### **Changes in Internal Controls over Financial Reporting**

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our quarter ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### **Inherent Limitations on Effectiveness of Controls**

The effectiveness of any system of controls and procedures is subject to certain limitations, and, as a result, there can be no assurance that our controls and procedures will detect all errors or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system will be attained.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

We are party to legal proceedings which arise in the ordinary course of business. We believe that the outcome of such matters, individually and in the aggregate, will not have a material adverse effect on our consolidated financial position.

#### **Item 1A. Risk Factors**

There have been no material changes in our risk factors in the quarter ended September 30, 2018 from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

## AMENDMENT TO EMPLOYMENT AGREEMENT

AMENDMENT TO EMPLOYMENT AGREEMENT, dated as of December 19, 2016, between Sarah C. Doran (“Executive”) and James River Group Holdings, Ltd. (the “Parent Company”) and its subsidiary James River Group, Inc. (“the Company”).

Recitals

WHEREAS, the Parent Company, the Company and Executive are parties to an Employment Agreement dated as of December 19, 2016 (the “Agreement”), which provides for the employment of the Executive by the Parent Company and the Company as Chief Financial Officer in accordance with the terms and provisions thereof; and

WHEREAS, the Board of Directors of the Parent Company has approved certain amendments to the Agreement, and Executive has agreed to accept such amendments.

NOW, THEREFORE, for good and valuable consideration, the parties hereto hereby agree as follows:

1. Section 5. Section 5(d)(v) of the Agreement is hereby amended by changing the phrase “nine (9) months” to “twelve (12) months.”
  2. Section 7. (a) In the first paragraph of Section 7(a)(iv), the phrase “thirty (30) days” is hereby changed to “forty five (45) days.”
- (b) Section 7(a)(iv)(1) of the Agreement is hereby deleted in its entirety and the following substituted in lieu thereof:

“(1) In the event of a termination without Cause or for Good Reason, or a Companies Non-Renewal Termination: (I) before or 12 months or more after a Change in Control (as defined in Section 7(d)), a gross amount equal to (a) Executive's base salary in effect on the termination date divided by (b) twelve (12), per month, subject to any applicable deductions and withholdings, for a period of twenty four (24) months after the Termination Date, or (II) within twelve (12) months after a Change in Control, a gross amount equal to (x) Executive's base salary in effect on the Termination Date divided by (y) twelve (12), per month, subject to any applicable deductions and withholdings, for a period of thirty (30) months after the Termination Date, which, in either case, shall be paid in periodic installments by the Company in accordance with the Company's normal payroll practices in effect as of the Termination Date commencing on the first payroll cycle which is at least ten (10) business days after the 45th day after the Termination Date, unless such payments are required to be delayed pursuant to Section 8 below; and”

- (c) Section 7(d) of the Agreement is hereby amended by adding the following at the end thereof:

“For purposes of this Agreement, “Change in Control” means (and, for purposes of this definition only, capitalized terms have the meaning defined in the James River Group Holdings, Ltd. 2014 Long-Term Incentive Plan, as amended) the first to occur of the following events:

- i. the purchase or other acquisition (other than from Holdings), in a single transaction or series of related transactions, by any person, entity or group of persons, within the meaning of Section 13(d) or 14(d) of the Exchange Act (excluding, for this purpose, Holdings or its subsidiaries or any employee benefit plan of Holdings or its subsidiaries), of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Act) of 50% or more of either the then-outstanding Shares or the combined voting power of Holdings' then-outstanding voting securities entitled to vote generally in the election of directors;
- ii. consummation of a reorganization, merger, amalgamation or consolidation involving Holdings, in each case with respect to which persons who were the shareholders of Holdings immediately prior to such reorganization, merger, amalgamation or consolidation do not, immediately thereafter, own more than 50% of, respectively, the Shares and the combined voting power entitled to vote generally in the election of directors of the reorganized, merged, amalgamated or consolidated corporation's then-outstanding voting securities; or
- iii. a liquidation or dissolution of Holdings, or the sale of all or substantially all of the assets of Holdings; provided, however, an event described above shall be considered a Change in Control hereunder only if it also constitutes a “change in control event” under Section 409A of the Code, to

the extent necessary to avoid the adverse tax consequences thereunder with respect to any payment subject to Section 409A of the Code.”

3. Section 17. In Section 17(c), “Tennessee” is hereby changed to “North Carolina.”

4. Miscellaneous. (a) Except as specifically amended hereby, the Agreement shall remain in full force and effect and is hereby ratified and confirmed in all respects.

(b) This Agreement may be executed in any number of counterparts, including by facsimile, each of which shall be an original, but all of which together shall constitute one and the same instrument.

(c) This Amendment shall be effective as of the date it is fully executed by all of the parties to the Agreement.

(d) This Amendment shall be governed by construed and administered in accordance with the laws of North Carolina without regard to the principles of conflicts of law which might otherwise apply.

IN WITNESS WHEREOF, the parties hereto have executed this Amendment.
